Abe,

Dr.Lou is a long time family friend. He and my father sat on the Board of Cancer Research together for many years and built a strong friendship. He is a bit overbearing but he means well and if he can be of service to you for advice I am sure that he would enjoy the opportunity as he reached out and asked me.

Dr.Lou has been a Professor at Mt.Sinai and specialist in Hematology and Medical Oncology forever. I don't think that he is still practicing but I am sure he keeps in touch with his friends and up to date on what is going on.

He was very helpful in steering Puja Vora (Anita's daughter) to Albert Einstein Medical School in the Bronx. He also indicated that University of California Irvine would be a great choice.

Mimi can pipe in as she feels.

Warm Regards,

jamie

 Subject: Dr. Lou Introduction

Dear Jamie,

Thank you for graciously introducing me to Dr. Lou. I do have a few questions so that I may be well equipped to respond to this introduction. I did a quick search and it appears that Dr. Lou is based in New York and is a professor at Icahn School of Medicine in Manhattan, specializing in Hematology and Medical Oncology. Is this the correct Dr.

Lou? If I may ask, do you know him on a personal or professional basis?

I would just like to be as well equipped as possible when I respond.

Thank you - more than you know -

Abe
