UNDERLYING RECORDS FILE — Source Documentation & Index of Public Filings

Referenced as "available on request" in the Litigation Roadmap and Exhibit A · *Rosenwald v. Rosenwald*, Docket No. FST-FA26-6078292-S

Compiled by Abraham Rosenwald, Self-Represented Party · June 18, 2026

This file collects the public filings behind every figure stated in the Roadmap and Exhibit A, with the exact identifiers and retrieval paths so each can be independently verified, downloaded, and — where needed — certified under the Connecticut Code of Evidence (§§ 9-3 authentication of public records; 10-4 proof by certified copy; 10-5 summaries with originals available). Dollar figures are verbatim from the filings. The complete set of original filing images is held in the records binder indexed in Part 8 and is available for inspection or copying on request.

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Pension Investment Committee
Resolute FP US Pension Plan

Scope and nature of the ERISA Section 103(a)(3)(C) audit
We have performed an audit of the financial statements of Resolute FP US Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2023, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have an audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2023, and for the year then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion
In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Grant Thornton LLP is a U.S. member firm of Grant Thornton International Ltd (GTIL). GTIL and each of its member firms are separate legal entities and are not a worldwide partnership.

Basis for opinion
We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of management for the financial statements
Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's responsibilities for the audit of the financial statements
Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other matters

Supplemental schedule required by ERISA
The supplemental schedule of nonexempt transactions for the year ended December 31, 2023 ("supplemental schedule"), is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures. These additional procedures included comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's report on the 2022 financial statements
Predecessor auditors performed an audit of the 2022 financial statements of the Plan. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the prior year audit did not extend to any statements or information related to assets held for investment of the plan that were certified by a qualified institution. Their report dated October 11, 2023, indicated that (a) the amounts and disclosures in the 2022 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America, and (b) the information in the 2022 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Resolute FP US Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined benefit retirement plan established and maintained by Resolute FP US Inc. ("Resolute FP US" or the "Plan Sponsor"), a direct wholly owned subsidiary of Resolute Forest Products Inc. ("Resolute", "Employer" or the "Company").

The Plan covers:

- certain active and former employees of Resolute FP US and its US affiliated companies that are covered by collective bargaining agreements that provide for coverage under the Plan;
- certain active and former non-bargaining employees of Resolute FP US, including individuals employed by AbiBow Recycling LLC, Abitibi Consolidated Sales LLC and Resolute FP Augusta LLC; and
- former hourly and salaried employees of Great Northern Paper, Inc. and Avenor America Inc.

Effective December 31, 2012, (i) the AbiBow US Retirement Plan; (ii) the Abitibi Consolidated US Pension Plan for Certain Hourly-Paid Employees; (iii) the Abibiti Consolidated US Retirement Plan; and (iv) the Augusta Newsprint Company Retirement Plan (collectively, the "Merged Plans"), each sponsored by members of the Resolute controlled group, were merged into the Plan.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA") and is a tax-qualified plan under Internal Revenue Code ("IRC") Section 401(a). As required by ERISA, all Plan assets are held in trust by The Bank of New York Mellon/BNY Mellon, N.A. (the "Trustee") and are not subject to creditors of Resolute FP US or any other company affiliated with Resolute FP US.

Plan Amendments

The Plan was amended on November 14, 2019 to reflect the closure of the Augusta mill and provide an early retirement incentive for certain eligible employees. As of January 31, 2022, the Plan was amended to reflect the closure of the pulp and paper operations of the Calhoun mill and provide an early retirement incentive for certain eligible employees.

Pension benefits

Generally, participants are eligible for normal retirement benefits at age 65 or reduced early retirement benefits upon reaching specific ages with minimum years of service requirements.

Generally, if a participant terminates before rendering five years of service, he or she forfeits the right to receive Plan benefits. Subject to the Pension Protection Act of 2006 ("PPA") benefit restrictions, participants have the right to receive the value of their accumulated plan benefits as a monthly annuity or, in certain instances, a small lump-sum payment.

Effective December 31, 2010, the Plan was closed to new hires. In addition, only certain grandfathered participants were permitted to continue to accrue benefits under the Plan after December 31, 2010. A participant is grandfathered if, as of December 31, 2010, he or she (a) was actively employed with Resolute FP US and at least age 55; (b) was actively employed with a Resolute employer participating in the Plan and his or her age plus years of benefit service (including, if applicable, years of service with Kimberly-Clark

Corporation at Coosa River Mill) total at least 70; (c) had 10 years of vesting service and had incurred a disability; or (d) was on layoff status with a locally negotiated recall right and would have otherwise satisfied (a) or (b). A terminated participant who is rehired after December 31, 2010 will not resume active participation in the Plan unless the participant is grandfathered and reemployed by Resolute FP US within his or her locally negotiated recall period.

Certain of the Merged Plans were closed to new hires before they merged into the Plan, and certain of the Merged Plans also permitted certain grandfathered participants to continue to accrue benefits under their respective merged plan if they met the criteria for being a grandfathered participant.

The description of the pension benefits for each of the Merged Plans is set forth in the notes to financial statements for each Merged Plan's respective financial statements for the year ended December 31, 2012, and are incorporated herein by reference.

Death and Disability Benefits

Generally, if a participant who is an active employee with at least five years of service dies, a death benefit will be paid to the surviving spouse.

Generally, if an active participant becomes disabled after ten years of service, the participant is paid disability benefits on a monthly basis. Effective December 31, 2010, the disability benefit is available only to grandfathered participants (as described above). In lieu of a disability benefit under the Plan, non-grandfathered participants became eligible to participate in an employer-sponsored long-term disability plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements have been prepared using the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America ("US GAAP").

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are made through its interest in the Resolute FP US Master Trust for Defined Benefit Plans (the "Master Trust"). As of December 31, 2021, the Plan was the sole investor of the Master Trust due to the November 2019 redemption of the Ponderay Plan's interest in the Master Trust.

The fair value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. Administrative expenses are paid by the Master Trust and are either charged directly to the individual plan when the expense is specifically identifiable or allocated to each plan on a proportionate basis.

The Master Trust records purchases and sales of securities on a trade-date basis, records interest income on an accrual basis and accrues dividends on the ex-dividend date. The information on Master Trust assets and changes in Master Trust assets as described in Note 5 has been certified by the Trustee to be complete and accurate.

During the year, the Master Trust engaged in a securities lending program administered by the Trustee as the Lending Agent. Further details with regard to the securities lending program are included in Note 7.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

For the year ended December 31, 2023, the Plan paid administrative expenses consisting of actuary, trustee and recordkeeping fees and Pension Benefit Guaranty Corporation ("PBGC") premiums in the amount of $4,578,413 and investment management fees in the amount of $1,935,419. Certain administrative expenses of the Plan are paid by Resolute FP US, and certain administrative functions are performed by employees of the Company. No payment is made by the Plan for these expenses and services.

NOTE 3 - PLAN FUNDING

In recent years, the Plan Sponsor's funding policy generally has been to make contributions sufficient to maintain an 80% funded position, but not less than the minimum required contributions nor more than the maximum deductible contributions for the plan year.

The Plan sponsor bears the entire cost of providing benefits under the Plan, as actuarially determined to maintain the Plan, and makes contributions to the Master Trust. No contributions are required or allowed by participants. The Plan's minimum required contributions were partially funded using the funding balance available and cash contributions by the Plan Sponsor. The Plan Sponsor made a $9,381,584 contribution during the year ended December 31, 2023 and has met the minimum funding standards of ERISA.

Although it has not expressed any intention to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth by ERISA, as described in Note 12.

NOTE 4 - INFORMATION CERTIFIED BY THE TRUSTEE

The Plan administrator has elected to have the audit performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The Plan administrator determined that the certification received from the Trustee meets the requirements of ERISA Section 103(a)(3)(C). The Trustee certified that the following data included in the accompanying financial statements are complete and accurate:

- Plan interest in Master Trust investments, at fair value, as shown in the statements of net assets available for benefits as of December 31, 2023 and 2022.
- Plan interest in Master Trust investment income as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2023.

NOTE 5 - MASTER TRUST

The Plan has an interest in the investments held by the Master Trust. Master Trust assets are categorized into investment pools by risk category and plan interest is determined by each Plan's allocation to each investment pool. Those investments are stated at fair value determined and reported by the Trustee in accordance with the Master Trust agreement established by the Company.

Plan assets represent 100% of the total assets reported by the Trustee (Note 1) of the Master Trust as of December 31, 2023 and 2022, respectively.

The net assets of the Master Trust as of December 31, 2023 and 2022, were as of follows:

Investment income of the Master Trust for the year ended December 31, 2023 was as follows:

Net appreciation in fair value of investments	$ 57,907,710
Interest, dividend and other income	14,848,473
Net Master Trust investment income	$ 72,756,183

NOTE 6 - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides for a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted process in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of hierarchy under the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets and liabilities in active markets that the Plan has the ability to access.

Level 2 - Valuations based on observable inputs, other than Level 1 prices, such as quoted interest or currency exchange rates. Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the valuation of the fair value of assets and liabilities and their placement within the fair value hierarchy.

Following is a description of the valuation methodologies used for assets measured at fair value as of December 31, 2023.

Common stocks: consists of equities in various companies and are valued using observable, unadjusted quoted prices in active markets.

Government securities: consists of debt securities issued government entities and are valued using quoted market prices or market-corroborated inputs such as matrix prices, yield curves and indices.

Corporate bonds: consists of debt securities issued by corporations and are valued using market-corroborated inputs such as matrix prices, yield curves and indices.

Other investments: consists of derivatives, such as bond futures, credit default and interest rate swaps and currency contracts. These financial instruments are valued using quoted market prices or market-corroborated inputs and discounted cash flow models.

Registered investment companies: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. These investments are classified within Level 1 of the valuation hierarchy.

Collective trusts: Valued at the NAV of units of a collective trust. The NAV is used as a practical expedient to estimate fair value and is based on the fair value of the underlying investments held by the fund less its liabilities.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's investments at fair value as of December 31, 2023:

	2023			
	Level 1	Level 2	Level 3	Total
Cash collateral - derivatives	$ -	$ 2,009,258	$ -	$ 2,009,258

Investments reported at NAV				
Collective trusts				60,920,159
Total investments, at fair value				$ 561,519,989

The table below presents additional information for the Master Trust's investments, whose fair value is estimated using the practical expedient of reported NAV for the year ended December 31, 2023:

	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective trusts	$ 60,920,159	-	Immediate	N/A

Following is a description of the valuation methodologies used for assets measured at fair value as of December 31, 2022:

Equity securities: include large-cap, mid-cap and small cap publicly traded companies primarily located in the United States and other developed countries, as well as commingled equity funds invested in the same types of securities. The fair value of the equity securities is determined based on quoted market prices.

Debt securities: include corporate bonds of US companies, bonds and treasuries issued by the US government, asset-backed securities and commingled fixed income funds invested in the same types of securities. The fair value of the debt securities is determined based on quoted market prices or market-corroborated inputs such as matrix prices, yield curves and indices.

Investments measured at NAV are excluded from the fair value hierarchy table. These investments are commingled funds, composed of equity securities or short-term investment funds, where the corresponding NAV per share is equal to the total net assets divided by the total number of shares.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's investments at fair value as of December 31, 2022:

	2022

Derivative Instruments

The Plan, through the Master Trust, holds derivatives to replicate the performance of a fixed income index. The objective of using these financial instruments is to manage interest rate risk and to achieve returns that closely align with the fixed income index. These financial instruments involve market risk, credit risk and other risks such as counterparty risk.

The Master Trust's net position in these derivative instruments, representing unrealized gain or loss, as measured by the difference between the value at the contract date and the value at the reporting date, is included in the Master Trust's statement of net assets. As all investments held by the Master Trust are measured at fair value, both unrealized and realized gain or loss on these derivatives are recognized in the Master Trust's statement of changes in net assets.

The Master Trust may be required to post collateral on derivatives if the Master Trust is in a net liability position exceeding certain amounts. Additionally, counterparties may immediately terminate the derivative contracts if sufficient asset coverage is not maintained.

Master Netting Agreements

The Master Trust is subject to master netting arrangements with certain counterparties. Master netting arrangements allow the Master Trust to offset certain financial assets and liabilities in the event of default or termination events, thereby reducing credit risk and enhancing liquidity.

The following is a summary of the Master Trust's net exposure to derivative assets and liabilities, by financial instrument type, for offset and net of collateral under master netting arrangements as of December 31, 2023.

Type	Fair Value of Assets	Fair Value of Liabilities	Net Unrealized Gain/Loss	Net Collateral Pledged	Net Exposure
Futures contracts	$ 1,234,629	$ (479,990)	$ 754,639	$ 489,977	$ 1,244,616
Swaps and forward contracts	12,596,528	(12,840,825)	(244,298)	1,519,281	1,274,983
Total	$ 13,831,156	$ (13,320,815)	$ 510,341	$ 2,009,258	$ 2,519,599

NOTE 7 - SECURITIES LENDING

The Master Trust participates in a securities lending program administered by the Trustee as the Lending Agent. Securities lending is an investment overlay strategy that utilizes certain existing securities of the Master Trust to earn additional income. Securities lending involves the loaning of securities to approved banks and broker/dealers. In return for the loaned securities, the Lending Agent, prior to or simultaneous with delivery of the loaned securities to the borrower, receives collateral in the form of cash or US government securities. Each loan is collateralized, in the case of (a) US securities, an amount equal to 102%; and (b) foreign securities, an amount equal to 105% of the market value of such loaned securities. The collateral is marked to market on a daily basis. In the event of borrower default, the Master Trust is contractually indemnified by the Lending Agent. However, the Master Trust is responsible for principal losses on the investment of the cash collateral.

The Master Trust maintains full ownership rights to the securities loaned and accordingly classifies loan securities as investments. Securities lending income earned by the Master Trust is recorded on an accrual basis and was $104,723 for the year ended December 31, 2023.

As of December 31, the table below presents the fair values of securities on loan and collateral received from securities lending transactions.

	2023	2022
Securities on loan	$ 19,362,466	$ 26,307,135
Collateral received	19,901,356	27,066,849
Collateral to loan value	102.8%	102.7%

NOTE 8 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service participants have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries; (b) beneficiaries of participants who have died; and (c) active participants or their beneficiaries. For certain participating groups, the monthly benefit under the Plan is equal to a fixed benefit rate multiplied by a participant's years of credited service. For other participating groups, the monthly benefit under the Plan is

equal to the greatest of (a) a fixed benefit rate multiplied by a participant's years of credited service; (b) a percentage of earnings multiplied by a participant's years of credited service; or (c) $100 minus the participant's benefit, if any, under a predecessor plan. Benefits payable under all circumstances are included to the extent they are deemed attributable to service rendered prior to the valuation date.

The actuarial present value of accumulated plan benefits as of December 31, 2023 and 2022 was determined by Willis Towers Watson. The present value is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The actuarial assumptions are based on the presumption that the Plan will continue with certain benefits frozen as described in Note 1. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits of the Plan as of December 31, 2023 and 2022 were as follows:

	2023	2022
Actuarial present value of accumulated plan benefits		
Vested benefits		
Participants receiving benefits	$ 612,050,025	$ 611,704,560
Participants with deferred benefits	35,212,200	36,309,756
Active employees	28,564,124	29,082,559
	675,826,349	677,096,875
Non-vested benefits	53,629	95,277
	$ 675,879,978	$ 677,192,152

Changes in the actuarial present value of accumulated plan benefits for the year ended December 31, 2023 were as follows:

Actuarial present value of accumulated plan benefits - beginning of year	$ 677,192,152
Increase (decrease) during the year attributable to	
Benefits accumulated	288,994
Interest due to decrease in discount period	41,307,996
Benefits paid	(64,087,419)
Assumption changes	15,858,721
Actuarial losses	5,319,534
Net decrease	(1,312,174)
Actuarial present value of accumulated plan benefits - end of year	$ 675,879,978

Actuarial gains and losses include increases or decreases attributable to differences between the actuarial demographic assumptions and actual plan experience.

The significant assumptions used in the actuarial valuation as of December 31, 2023 are as follows:

Discount rate	6.10%
Retirement age	Employee turnover and retirement based on rates varying by age
Mortality table Healthy	Pri-2012 sex-distinct tables with separate mortality rates for annuitants, non-annuitants and contingent survivors and MP-2021 generational improvements after 2012. Blue collar tables are used for hourly participants and white collar tables are used for salaried participants.
Mortality table Disabled	Disabled Pri-2012 table with MP-2021 generational improvement scale

The significant assumptions used in the actuarial valuation as of December 31, 2022 were as follows:

Discount rate	6.40%
Retirement age	Employee turnover and retirement based on rates varying by age
Mortality table Healthy	Pri-2012 sex-distinct tables with separate mortality rates for annuitants, non-annuitants and contingent survivors and MP-2021 generational improvements after 2012. Blue collar tables are used for hourly participants and white collar tables are used for salaried participants.
Mortality table Disabled	Disabled Pri-2012 table with MP-2021 generational improvement scale

NOTE 9 - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in a Master Trust the assets of which are held with the Trustee, which also acts as the custodian as defined by the Plan. Therefore, the day-to-day transactions occurring between the Trustee and the Plan qualify as permitted party-in-interest transactions.

NOTE 10 - TAX STATUS

The Internal Revenue Service (“IRS”) has determined and informed Resolute FP US by a letter dated November 17, 2016 that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (“IRC”). The Plan has been amended since receiving such determination letter. The Plan administrator believes that the Plan is currently operating in substantial compliance with the applicable requirements of the IRC and the Plan document, and the Plan’s related trust continues to be tax-exempt under the IRC.

US GAAP requires management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained on examination by the IRS. The Plan administrator is not aware of any uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in process.

NOTE 11 - RISK AND UNCERTAINTIES

The Master Trust invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of the Master Trust will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

NOTE 12 - PLAN TERMINATION

In the event the Plan is terminated, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, to provide the following benefits in the order indicated:

a) Annuity benefits that former participants or their beneficiaries have been receiving for at least three years, or that participants eligible to retire for that three-year period would have been receiving had they retired with benefits in the normal form of annuity under the Plan. The amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.

b) Other vested benefits insured by the PBGC up to the applicable limitations.

c) All other vested benefits (vested benefits not insured by the PBGC).

d) All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan is terminated. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits (up to the amount earned to normal retirement) and certain survivor and disability benefits. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination (or, if earlier, the date bankruptcy proceedings began, if the Plan is terminated during such proceedings). However, if a plan that has been in effect less than five years should be terminated, or if benefits have been increased within the five years before plan termination, the whole amount of the plan's vested benefits or the benefit increases may not be guaranteed. No benefit or benefit increase that has been in effect for less than 12 months before the plan terminates is guaranteed. In addition, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees; this ceiling is periodically adjusted. The maximum PBGC guarantee is lower if benefits begin before age 65 or if benefits are paid in a form other than a life annuity.

Upon Plan termination, the ability of all participants to receive their benefits will depend on the sufficiency of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE 13 - SUBSEQUENT EVENTS

Effective March 31, 2024, the Domtar US Salaried Pension Plan (the "Merged Plan") was merged into the Resolute FP US Pension Plan (the "Receiving Plan"). The asset, liabilities and future contributions of the Merged Plan will be reported under the Receiving Plan going forward.

The Plan has evaluated subsequent events through October 15, 2024, the date on which the financial statements were available to be issued, and it has determined that no other significant events have occurred that would require additional recognition or disclosure.

Statement of Actuarial Assumptions/Methods

Economic Assumptions

Interest rate basis:

- Applicable month: September
- Interest rate basis: 3-Segment Rates

Interest rates:

	Reflecting ARPA Corridors	Not Reflecting Corridors
• First segment rate	4.75%	1.41%
• Second segment rate	5.00%	3.09%
• Third segment rate	5.74%	3.58%
• Effective interest rate	5.16%	3.11%

Annual rates of increase

- Future Social Security wage bases: 3.25%
- Statutory limits on compensation: 2.50%

Administrative expenses: $4,687,924 added to current year target normal cost.

Inclusion date: The valuation date coincident with or next following the date on which the employee becomes a participant. The plan is closed to new entrants.

New or rehired employees: It was assumed there will be no new or rehired employees.

Timing of benefit payments: Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Annual rates of increase

- Compensation — 2.10%
- 417(e) Lump Sums — Liabilities are determined based on the underlying annuity used by the plan to determine the lump sum amount, rather than valuing the lump sum payment. This annuity is valued based on funding interest rates rather than 417(e) rates and current year 417(e) unisex mortality.

Mortality for MRC

- Non-annuitants — Based on RP-2014 “Employees” table without collar or amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with a static projection as specified in the regulations under §1.430(h)(3)-1 using scale MP-2021.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year.
Actuarial value of assets for determining minimum required contributions	Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings with such expected earnings limited as described in IRS Notice 2009-22. The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year). The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued. WTW is not aware of any significant benefits required to be valued that were not.

Assumptions Rationale - Significant Economic Assumptions

Discount rate – Qualified Plan Funding	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Lump sum conversion rate	As required by IRC 430, lump sum benefits are valued using “annuity substitution”, so that the interest rates assumed are effectively the same as described above for the discount rate.

SCHEDULE SB ATTACHMENTS

Administrative expenses	Administrative expenses expected to be paid from the qualified plan trust during the year beginning on the measurement date are estimated as the three year average of the actual non-PBGC expenses paid from the trust plus expected PBGC flat rate and variable rate premiums for the coming year. The non-PBGC expenses were adjusted to exclude expenses related to non-recurring administrative projects.
Rates of increase in:	
• Compensation	The long-term compensation increase assumption reflects an assumed rate of inflation of 2.10% per annum. Assumed increases were chosen by Resolute and, as required by U.S. GAAP they represent an estimate of future experience.
• National average wages (NAW) (e.g., Social Security wage bases)	The assumed NAW is based on assumed CPI as shown below, plus assumed increases in real wages (the portion of GDP increases that becomes part of wages).
• Increases in statutory limits (CPI)	The assumed CPI reflects an estimate of future rates of inflation considering economic and financial market conditions at the measurement date. Assumed increases were chosen by Resolute and represent an estimate of future experience.

SCHEDULE SB ATTACHMENTS

Assumptions Rationale - Significant Demographic Assumptions

Healthy and Disabled Mortality – Qualified Plan Funding	Non-annuitants: Assumptions used for funding purposes are as prescribed by IRC §430(h). Annuitants: Substitute mortality rates were developed in accordance with Revenue Procedure 2017-55 and approved via Private Letter Ruling dated April 16, 2019.
Termination	Termination rates are developed taking into account the past experience of the plan, discussions with Resolute management concerning their future expectations, plan provisions and our experience with other similar plans. The termination rates were determined on this basis by the previous actuary and selected by Resolute. Because the plan's recent experience is not considered to be credible, this assumption has been maintained. We have not observed significant gains or losses due to this assumption.
Disability	Disability rates are developed taking into account the past experience of the plan, discussions with Resolute management concerning their future expectations, plan provisions and our experience with other similar plans. The disability rates were determined on this basis by the previous actuary and selected by Resolute. Because the plan's recent experience is not considered to be credible, this assumption has been maintained. We have not observed significant gains or losses due to this assumption.
Retirement	Retirement rates are typically developed taking into account the past experience of the plan, discussions with Resolute management concerning their future expectations, plan provisions and our experience with other similar plans. The retirement rates were determined on this basis by the previous actuary and we have maintained these rates unchanged. We have not observed significant gains or losses due to this assumption. All members are assumed to commence their pension at retirement date.
Percent married	The assumed percentage married is based on general population statistics on the marital status of individuals of retirement age.

Spouse age	The assumed age difference for spouses is based on general population statistics of the age difference for married individuals of retirement age.
Benefit commencement date for deferred benefits:	
• Preretirement death benefit	Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.
• Deferred vested benefit	Deferred vested participants are assumed to begin benefits at the earliest age each participant is eligible to receive unreduced benefits based on the plan's early retirement reduction schedules (or current age if later). This assumption was initially selected by Resolute with the assistance of the prior actuary. Because the plan's recent experience is not considered to be credible, this assumption has been maintained as a conservative assumption. We have not observed significant gains or losses due to this assumption.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2021 to September 2022 and include the rate corridors of ARPA.
- The mortality table used to calculate the funding target and target normal cost was updated to use the MP-2020 projection scale as specified in the regulations under §1.430(h)(3)-1.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Annual rates of increase

- Compensation — 2.10%
- 417(e) Lump Sums — Liabilities are determined based on the underlying annuity used by the plan to determine the lump sum amount, rather than valuing the lump sum payment. This annuity is valued based on funding interest rates rather than 417(e) rates and current year 417(e) unisex mortality.

Mortality for MRC

- Non-annuitants — Based on RP-2014 “Employees” table without collar or amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with a static projection as specified in the regulations under §1.430(h)(3)-1 using scale MP-2021.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year.
Actuarial value of assets for determining minimum required contributions	Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings with such expected earnings limited as described in IRS Notice 2009-22. The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year). The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued. WTW is not aware of any significant benefits required to be valued that were not.

Assumptions Rationale - Significant Economic Assumptions

Discount rate – Qualified Plan Funding	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Lump sum conversion rate	As required by IRC 430, lump sum benefits are valued using “annuity substitution”, so that the interest rates assumed are effectively the same as described above for the discount rate.

SCHEDULE SB ATTACHMENTS

Administrative expenses	Administrative expenses expected to be paid from the qualified plan trust during the year beginning on the measurement date are estimated as the three year average of the actual non-PBGC expenses paid from the trust plus expected PBGC flat rate and variable rate premiums for the coming year. The non-PBGC expenses were adjusted to exclude expenses related to non-recurring administrative projects.
Rates of increase in:	
• Compensation	The long-term compensation increase assumption reflects an assumed rate of inflation of 2.10% per annum. Assumed increases were chosen by Resolute and, as required by U.S. GAAP they represent an estimate of future experience.
• National average wages (NAW) (e.g., Social Security wage bases)	The assumed NAW is based on assumed CPI as shown below, plus assumed increases in real wages (the portion of GDP increases that becomes part of wages).
• Increases in statutory limits (CPI)	The assumed CPI reflects an estimate of future rates of inflation considering economic and financial market conditions at the measurement date. Assumed increases were chosen by Resolute and represent an estimate of future experience.

SCHEDULE SB ATTACHMENTS

Assumptions Rationale - Significant Demographic Assumptions

Healthy and Disabled Mortality – Qualified Plan Funding	Non-annuitants: Assumptions used for funding purposes are as prescribed by IRC §430(h). Annuitants: Substitute mortality rates were developed in accordance with Revenue Procedure 2017-55 and approved via Private Letter Ruling dated April 16, 2019.
Termination	Termination rates are developed taking into account the past experience of the plan, discussions with Resolute management concerning their future expectations, plan provisions and our experience with other similar plans. The termination rates were determined on this basis by the previous actuary and selected by Resolute. Because the plan's recent experience is not considered to be credible, this assumption has been maintained. We have not observed significant gains or losses due to this assumption.
Disability	Disability rates are developed taking into account the past experience of the plan, discussions with Resolute management concerning their future expectations, plan provisions and our experience with other similar plans. The disability rates were determined on this basis by the previous actuary and selected by Resolute. Because the plan's recent experience is not considered to be credible, this assumption has been maintained. We have not observed significant gains or losses due to this assumption.
Retirement	Retirement rates are typically developed taking into account the past experience of the plan, discussions with Resolute management concerning their future expectations, plan provisions and our experience with other similar plans. The retirement rates were determined on this basis by the previous actuary and we have maintained these rates unchanged. We have not observed significant gains or losses due to this assumption. All members are assumed to commence their pension at retirement date.
Percent married	The assumed percentage married is based on general population statistics on the marital status of individuals of retirement age.

Spouse age	The assumed age difference for spouses is based on general population statistics of the age difference for married individuals of retirement age.
Benefit commencement date for deferred benefits:	
• Preretirement death benefit	Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.
• Deferred vested benefit	Deferred vested participants are assumed to begin benefits at the earliest age each participant is eligible to receive unreduced benefits based on the plan's early retirement reduction schedules (or current age if later). This assumption was initially selected by Resolute with the assistance of the prior actuary. Because the plan's recent experience is not considered to be credible, this assumption has been maintained as a conservative assumption. We have not observed significant gains or losses due to this assumption.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Information on Use of Substitute Mortality Tables

Different mortality tables were used for before and after retirement. Per instructions, Item 23 reflects that the annuitant mortality will apply to the entire population. Below is the break out of the current population.

Population description	Population size	Mortality table
Non-annuitants (Active employees and participants with deferred benefits)	**921**	Pre-retirement: IRS prescribed fully generational table based on the RP/MP-2014 Society of Actuaries study and subsequent updates (including, for 2023 plan years, the use of the MP-2021 mortality improvement scale). Post-retirement: Plan specific mortality approved by the IRS.
Male and Female annuitant only	**3810**	Plan specific mortality approved by the IRS

SCHEDULE SB ATTACHMENTS

Schedule SB, Line 23
Information on Use of Substitute Mortality Tables

Substitute mortality tables are used for the following plan populations:

Mortality is assumed to occur according to a plan-specific substitute mortality table with separate male and female rates, as approved by the IRS in 2019 for valuations for the 2019 through 2023 plan years. The mortality rates are applied to all annuitants (including disabled annuitants). The prescribed tables apply for non-annuitants (including disabled non-annuitants) before retirement. The tables were developed based on the mortality experience of the annuitant populations for qualified defined benefit pension plans sponsored by Resolute FP US Inc. for the period January 1, 2013 through December 31, 2017. The tables are generational, based on the IRS-prescribed projection scale MP-2020, with a base year of 2015. The table below presents illustrative rates for the base year.

Summary of Plan Provisions

Effective December 31, 2012, the AbiBow US Retirement Plan, the Abitibi Consolidated U.S. Retirement Plan, the Abitibi Consolidated U.S. Pension Plan for Certain Hourly-Paid Employees and the Augusta Newsprint Company Retirement Plan were merged into the AbiBow US Pension Plan. The newly merged plan maintains each of the prior plans' provisions. The name of the ongoing plan was changed effective January 1, 2013 to the Resolute FP US Pension Plan.

Supplement 1 - Coosa River Mill and Woodlands

Plan Provisions

Covered employees	All hourly employees who are paid on an hourly basis are eligible to participate in the plan on the later of April 1, 1997 and their date of hire. No new entrants to the plan are permitted after January 1, 2009.
Participation date	Date of becoming a covered employee.
Grandfathered participant	A participant who, as of December 31, 2010: • Is an employee who has attained age 55, • Is an employee whose age and years of benefit service total at least 70, • Has 10 years of vesting service and has incurred a disability, or is on layoff status and would have satisfied the age or points criteria listed above
Cessation of benefit accruals	Benefit accruals ceased for all participants other than grandfathered participants as of January 1, 2011.

Definitions

Vesting service	A year of vesting service is earned for each plan year in which an employee completes 1,000 or more hours of service. An employee may earn a partial year of service in the years of hire and termination.

SCHEDULE SB ATTACHMENTS

Supplement 1 - Coosa River Mill and Woodlands (continued)

Benefit service	A year of benefit service is earned for each plan year in which an employee completes the number of hours of service required by the twelve-month work schedule. An employee may earn a partial year of service in the year of hire, year of termination, and years where he has completed at least 1,000 hours of service.
Average monthly earnings	The average monthly earnings are the sum of the 5 years during which earnings were highest divided by the number of months during which earnings were received. Earnings include all compensation plus any amounts by which W-2 earnings have been reduced by reason of contributions to Section 125 and 401(k) plans; the maximum amount of annual earnings taken into account is limited by Section 401(a)(17) of the Internal Revenue Code.
Combined service benefit	The combined service benefit is a monthly benefit which is the greater of $600 or the normal retirement benefit payable to the participant utilizing service with Kimberly-Clark Corporation and U.S. Alliance.

Eligibility for Benefits

Normal retirement	Later of attainment of age 65 and the fifth anniversary of participation in the plan.
Early retirement	Attainment of age 55 and the completion of 5 years of vesting service.
Postponed retirement	Retirement after Normal Retirement Date.
Vested termination	Termination for reasons other than death or retirement after completing five years of vesting service.
Disability	Upon disablement after the completion of 10 years of vesting service.
Preretirement death benefit	Death while eligible for normal, early, postponed, or deferred vested retirement benefits, with a surviving spouse.

SCHEDULE SB ATTACHMENTS

Supplement 1 - Coosa River Mill and Woodlands (continued)

Benefits Paid Upon the Following Events

Normal retirement	The amount of the monthly benefit payable is the greatest of (a), (b), and (c) where (a) is $20.00 per year of benefit service, (b) is 1.125% of average monthly earnings multiplied by benefit service, and (c) is $100 less the Kimberly-Clark accrued benefit. Additional pension credit will be given for service after age 65 in the event of continued employment.
Early retirement	For participants with less than 10 years of vesting service, the monthly benefit payable immediately is the actuarial equivalent of the normal retirement benefit. For participants with 10 or more years of vesting service, the normal retirement benefit is reduced by 5% per year from the earlier of age 62 and the date the participant would have attained both age 60 and 30 years of vesting service.
Postponed retirement	The monthly pension benefit determined as of the actual retirement date.
Vested termination	Accrued normal retirement benefit, deferred until participant is eligible for and elects to receive an early, disability, or normal retirement benefit.
Disablement	A monthly benefit equal to the greater of $600 or the participant's Normal Retirement Benefit (unreduced for early commencement).
Preretirement death	Spouses of active participants with 10 or more years of vesting service or beyond normal retirement age are eligible to receive 50% of the participant's accrued benefit payable immediately following the participant's death. Spouses of certain inactive participants entitled to a future benefit and spouses of active participants with 5 but not 10 years of vesting service are eligible to receive 62.5% of the participant's accrued benefit reduced for form of payment and early commencement at the participant's earliest retirement date.

Other Plan Provisions

Normal forms of payment	Single life annuity for unmarried participants. 62.5% joint and survivor annuity for married participants.
Optional forms	Life annuity with 120 guaranteed monthly payments. Level income option (early retirees only).
Actuarial Equivalence	Interest: 6.50% Morality: 417(e) mortality table
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Future Plan Changes

No future plan changes were recognized in determining pension cost or in determining minimum and maximum contributions. Willis Towers Watson is not aware of any future plan changes which are required to be reflected.

Supplement 6 – Coosa Pines (continued)

Benefits Paid Upon the Following Events

Normal retirement	Accrued Benefit at Normal Retirement Date.
Early retirement	For participants with less than 10 years of vesting service, the monthly benefit payable immediately is the actuarial equivalent of the normal retirement benefit. For participants with 10 or more years of vesting service, the normal retirement benefit is reduced 5% per year from the earlier of age 62 and the date the participant would have attained both age 60 and 30 years of vesting service.
Postponed retirement	Benefit is greater of accrued benefit at late retirement or actuarial equivalent of benefit at Normal Retirement Date.
Early commencement of vested benefits	Benefits may begin at age 55 or later and will be reduced as under Early Retirement.
Disablement	An unreduced annuity at Normal Retirement Date calculated using compensation as of last day worked and service projected to Normal Retirement Date.
Preretirement death benefit	50% of the participant's accrued benefit reduced for form of benefit and early commencement payable at the participant's earliest retirement date. Spouses of inactive participants terminated before 2002 and entitled to a future benefit are eligible to receive 62.5% of the participant's accrued benefit reduced for form of payment and early commencement at the participant's earliest retirement date.

Mill Trade	5%
Mill U.P.I.U.	5%
United Plant Guard Workers of America	6%
Office Union	6%
U.P.I.U. Woodland Employees	5%
Rice Farm Nursery	6%
U.P.I.U. Aroostook District	6%
Pinkham Lumber Company U.P.I.U. Mill Workers	5%[2]
Pinkham Lumber Company United Plant Guard Workers of America	5%
Woodlands Nonunion Hourly Employees	5%

For participants with 30 or more years of continuous service, all groups are reduced 4% per year from age 60.

[1] Credit Service was frozen on September 2, 1999. However, service was allowed to continue to October 1, 1999 for participants retiring by October 1, 1999. All participants in this supplement are inactive.

[2] Employees hired into this unit before March 1, 1995 are eligible for early retirement at age 55 with only five years of continuous service. Additionally, benefits are reduced 5% per year from age 62 instead of age 65.

A prorated payment was allowed if the participant was within two years of eligibility on the sale of Great Northern Paper (September 17, 1999).

Supplement 7 – GNP Hourly (continued)

Early retirement supplement

The participant will receive a monthly supplement in addition to the normal monthly benefit until age 62. The amount of monthly supplement is as follows:

Participating Group	Monthly Supplement
Mill Trade	$200.00
Mill U.P.I.U.	$200.00

Pinkham Lumber Company U.P.I.U. Mill Workers	$150.00
Pinkham Lumber Company United Plant Guard Workers of America	$150.00
Woodlands Nonunion Hourly Employees	$150.00

Supplemental distributions

Participants who continue to accrue continuous service after the sale of GNP and after electing early retirement may receive a supplemental distribution from the plan each time they reach eligibility for a more subsidized early retirement benefit if that benefit is more valuable than the cumulative value of prior distributions.

Postponed retirement

Normal retirement benefit determined as of actual retirement date.

Disablement

Payment is retroactive to the first day of disability. The amount of the monthly benefit is equal to the benefit accrued up through the date of disability. Certain collective bargaining agreements provide for the offset of Worker's Compensation or other disability benefits derived from employer contributions.

Supplement 7 – GNP Hourly (continued)

Preretirement death	REA requirements only to surviving spouses of vested participants as qualified preretirement survivor annuity. If married participant dies after earliest retirement age, spouse receives 50% qualified joint and survivor annuity as if participant had retired on date of death. If married participant dies before earliest retirement age, spouse receives qualified joint and survivor annuity as if participant terminates on date of death, survived to earliest retirement date, retired with immediate qualified joint and survivor annuity, and died on next day.
Temporary postretirement death benefits	The surviving spouse of a deceased retiree who was in receipt of benefits is eligible for a temporary monthly benefit. The benefit is payable to the spouse from age 55 (or spouse's current age if older) until the earlier of: Eligibility to receive unreduced widow's benefit from the Social Security Administration: - Remarriage, or - Death The amount of the temporary benefit is the monthly amount that the retiree was receiving or would have been receiving if the normal form was elected.

Other Plan Provisions

Optional forms	Single life annuity (normal form); 50% joint and survivor annuity 100% joint and survivor annuity Level income, and Lump Sum (for certain bargaining units).

SCHEDULE SB ATTACHMENTS

Supplement 7 – GNP Hourly (continued)

Actuarial Equivalence	Tabular factors are used in determining benefit amounts for most optional forms of payment. If tabular factors are not available, the assumed interest rate is 5.5% and mortality is based on the 1984 UP table with male ages set forward one year and female ages set back four years. Mortality rates are weighted 94% male and 6% female. For commencements after 2006, the 417(e) mortality table and 6.50% interest will be used if they produce a larger optional form benefit.
Lump Sum	Interest rate is equal to the IRC §417(e) Applicable Interest Rate in effect two months before the beginning of the applicable plan year containing the determination date. The mortality table is the IRC §417(e) Applicable Mortality Table in effect at the beginning of the applicable plan year containing the determination date.
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Supplement 8 - GNP Salaried

Plan Provisions

Covered employees

Participant in the Bowater Incorporated Plan for Salaried Employees of Great Northern Paper, Inc. as of August 17, 1999

Participation date

Date of becoming a covered employee.

Definitions

Compensation

All cash remuneration excluding stock options, certain expenses, and incentives, but including bonuses.

Accrued benefit

The retirement benefit is based on the personal Accruals Prior to the Sale of GNP account balance as of January 1, 1992. After January 1, 1992, the account is increased monthly through the addition of pay related credits and periodic adjustments. At normal retirement, the account balance is converted to an increasing monthly single life annuity by dividing the account balance by a factor of 210. On January 1, 2000, the plan was amended to use 225 as the converting factor. On January 1, 2003, the plan was amended to use 233 as the converting factor.

The monthly pay-related credit[3] consists of a basic amount and an additional amount. The basic amount is 4% of monthly pay. The additional amount is a percentage of pay according to the following table:

Age on 01/01/1990	Additional percentage
<40	0%
40-45	1%
46	2%
47	3%
48	4%
49	5%
50+	6%

[3] If retired by October 1, 1999, accruals were allowed to continue until October 1, 1999; otherwise accruals were frozen as of September 2, 1999.

Supplement 8 – GNP Salaried (continued)

Accrued benefit (cont.)

Only participants who were participants in the Great Northern Nekoosa Retirement Plan for Salaried Employees on December 31, 1990 receive the additional credit.

The monthly periodic adjustment is a percentage increase in the account balance. The rate of monthly increase is determined at the beginning of each plan year. The rate is calculated to give an annual percentage increase equal to the sum of:

(a) The average PBGC immediate interest rate for the previous plan year, and

(b) 0.75%

On January 1, 2000, the plan was amended for GATT. The monthly periodic adjustment was changed to be the IRC §417(e) Applicable Interest Rate with a two month look-back period.

The monthly benefit expressed as a straight single life annuity cannot be less than the monthly benefit as of December 31, 1990 accrued in the Great Northern Nekoosa Retirement Plan for Salaried Employees.

Eligibility for Benefits

Normal retirement	First of month coinciding with or next following the later of attainment of age 65.
Early retirement	Age 55 and at least 10 years of service.

Participation date	Participation is the first of the month following the month of hire or the first of the month coincident with or next following attainment of age 21.

Definitions

Vesting	No benefit prior to three years of service. Full vesting after three years of service.
Benefit and vesting service	One month of service for each month in which an hour of service is worked. The result is rounded up to the next tenth of a year.
Covered compensation	Annualized earnings including vacation pay and bonuses, but excluding severance pay, relocation expenses reimbursements, special bonuses, etc. In no event shall compensation exceed $230,000 for 2008.
Eligibility for minimum transition benefit	Any employee who as of December 31, 1998 was a participant and had attained at least age 50 is eligible.
Minimum transition benefit	Applicable only to the participants who are eligible. This is the actuarially equivalent lump sum value of the prior plan benefit at termination less the value of the employer-provided 401(k) balance accumulated since January 1, 1999, assuming the participant received the maximum employer match invested in the Stable Value fund of the Abitibi Consolidated Sales Corporation 401(k) plan. These provisions continue to accrue through December 31, 2003. The prior plan provisions are presented in this section following the current plan provisions.

SCHEDULE SB ATTACHMENTS

Supplement 11 – Abitibi Consolidated U.S. Retirement Plan (continued)

Accrued benefit	Equal to the actuarial equivalent of the account balance at retirement. For those eligible for the special minimum transition benefit, the account balance benefit is the greater of the cash balance account or the minimum transition benefit. This cannot be less than the actuarially equivalent value of the December 31, 1998, accrued benefit under the prior plan. In addition, the benefit cannot be less than the December 30, 2002 accrued benefit calculated prior to the mortality table change for lump sums.
Opening account balance	Determined as the actuarial single sum value of the benefit accrued under their prior plans as of December 31, 1998, (December 31, 2004 for Alabama River Newsprint participants) offset by any benefits accrued by participants who transferred from other qualified plans. (If eligible as of December 31, 1998 for early retirement under the prior plan, then use the present value of the early benefit.) For Alabama River Newsprint participants the December 31, 2004 accrued benefit is based on an early benefit payable at age 55 (or immediate age, if later). Actuarial assumptions are based on GATT 1995 mortality and 6% interest rate for December 31, 1998 opening account balances and GATT 2003 and 4.89% interest rate for December 31, 2004 opening account balances for Alabama River Newsprint participants.

Supplement 11 – Abitibi Consolidated U.S. Retirement Plan (continued)

Contribution credit

Specified percentage of participant's compensation based on the participant's attained age as of the end of the plan year or date of termination, if earlier. The applicable percentage is based on the table below.

Attained age	Contribution credit
Less than 30	4.0%
30 – 90	5.0%
40 – 49	6.0%
50 – 59	7.0%
60 – 69	8.0%

Those Alabama River Newsprint participants who were at least age 50 as of December 31, 2004 will receive an additional benefit of 2% of their base pay for years 2005 to 2009.

Contribution credits shall cease effective January 1, 2008 for all employees at the White Plains, New York office or employees who transferred from Abitibi Sales Corporation, Inc. to Bowater, Inc.

Contribution credits for all other employees cease effective June 30, 2008.

Interest credit/frequency change

Credited to the account at the end of the plan year or the date of termination, if earlier. Interest will continue to be credited until the last day of the month preceding the date of distribution. For terminations occurring mid-year, interest will be credited on the balance as of the beginning of the plan year containing the termination date using simple interest to the end of the month of termination. The interest rate is changed annually and based on the Thirty-Year Treasury Rate for November of the previous plan year.

Eligibility for Benefits

Normal retirement

Age 65 and three years of service for those who terminated after December 31, 2007. Age 65 and five years of service for those who terminated after December 31, 1994 and prior to January 1, 2008. Otherwise, age 65.

Early retirement

Not applicable except for minimum transition benefits. Plan allows for distribution of benefits at termination of employment.

Supplement 11 – Abitibi Consolidated U.S. Retirement Plan (continued)

Postponed retirement	Continued employment beyond Participant's Normal Retirement Date.
Vested termination	Termination for reasons other than death or retirement after completing 3 years of service.
Disability	Incapacity due to bodily injury or physical or mental disease that entitles the Participant to receive disability benefits under the Social Security Act.
Preretirement death benefit	Death while eligible for normal, early, postponed or deferred vested retirement benefits, with a surviving spouse.

Benefits Paid Upon the Following Events

Normal retirement	Accrued Benefit at Normal Retirement Date.
Early retirement	Not applicable except for minimum transition benefits. Plan allows for distribution of benefits at termination of employment.
Postponed retirement	The greater of: (a) the Actuarial Equivalent of the Participant's Accrued Benefit as of his Normal Retirement Date, or (b) the Participant's Accrued Benefit as of his Late Retirement Date.
Vested termination	Continued interest credits on cash balance account.
Disablement	Continue interest credits and contribution credits based on participant's last completed year of earnings.

SCHEDULE SB ATTACHMENTS

Preretirement death	Full lump sum available to a married or single employee (can name any beneficiary, subject to spousal consent) who dies before his benefits commence and who is vested in his benefit at the time of death. Qualified Pre-Retirement Survivor Annuity is available (50% J&S benefit).

SCHEDULE SB ATTACHMENTS

Supplement 11 – Abitibi Consolidated U.S. Retirement Plan (continued)

Other Plan Provisions

Forms of payment	The normal forms are the Five Year Certain and Life benefit for single participants and the 50% Joint & Survivor Annuity for married participants. Other forms of payment available are the Lump Sum Payment, the Life annuity, the 10 or 15 Year Certain and Life annuity and the 50% or 100% joint and survivor annuity. Mandatory cash-out No more than $1,000.
Actuarial Equivalence	The GATT 2003 mortality table (1994 Group Annuity Reserving Table projected to 2002 (unloaded and blended 50% male/50% female)) and the Thirty Year Treasury Rate for November of the plan year preceding the plan year of determination. This basis will be used for all interest crediting, lump sum calculations, and optional form conversions after December 30, 2002.
Reemployment service	Restore service if the participant was vested or the break in service did not exceed 5 years.

Supplement 11 – Abitibi Consolidated U.S. Retirement Plan (continued)

Treatment of rehires with terminations before 1/1/99	Establish opening account balance based on current lump sum value of prior plan accrued benefit if not otherwise already paid out.
Transfers into plan	Prior defined benefit plan: Receive service back to original date of hire for vesting and benefit service. The opening account balance will be calculated as if the participant were always in the cash balance plan and will be offset by the value of the accrued benefit earned from the plan from which the participant transferred. Where sufficient pay history is not available, past salaries will be estimated using the first salary available adjusted by past increases in the Social Security Wage Base. The value of the accrued benefit will be determined based upon the assumptions for actuarial equivalence as of the date of transfer. In addition, for those participants transferring from a Canadian plan, all past salaries and benefits will be adjusted by the exchange rate between Canada and the U.S. based upon the exchange rate in effect on the date of transfer for purposes of calculating the opening account balance. Prior defined contribution plan: Receive service back to original date of hire for vesting service. Benefit service will begin as of date of transfer. Opening account balance as of date of transfer will be zero.
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Future Plan Changes

No future plan changes were recognized in determining pension cost or in determining minimum and maximum contributions. Willis Towers Watson is not aware of any future plan changes which are required to be reflected.

Supplement 11 - Minimum Transition Benefit Provisions For Those Participants Who Were Part Of The Stone-Consolidated (US) Corporation Salaried Employee's Retirement Plan (Including Snowflake Mill)

Definitions

Vesting and benefit service	A participant will receive vesting service and benefit service for the period of employment by the Stone-Consolidated Companies commencing with the later of their date of hire or the plan's effective date. Participants will receive 1/12 of a year of service for each month in which they work at least 15 days.
Social Security Normal Retirement Age	Social Security Normal Retirement Age means the earliest age at which the participant is entitled to receive unreduced old age benefits from Social Security.
Final average earnings	A participant's final average earnings, while an eligible employee, means total earnings for services rendered (including overtime) during the highest consecutive 60-month period of the last 180 months of employment (as a covered employee) preceding the earlier of an employee's termination date or Normal Retirement Date, or the total earnings for the entire period of the participant's employment, if such period is less than 60 months, divided by the period for which an employee had earnings.
Social Security Final Average Compensation	"Social Security Final Average Compensation" means the average of the participant's earnings over the three consecutive completed plan years preceding his or her date of retirement, date of termination of employment, date of death or date of termination of the plan, but excluding earnings, in any year, in excess of the Social Security taxable wage base.

SCHEDULE SB ATTACHMENTS

Supplement 11 – Minimum Transition Benefit Provisions For Those Participants Who Were Part Of The Stone-Consolidated (US) Corporation Salaried Employees' Retirement Plan (Including Snowflake Mill) (continued)

Social Security Allowance

The "Social Security Allowance" means 3/4% for each year of benefit service (up to 30 years) multiplied by the lesser of:

(1) 1/12th of the participant's Social Security final average compensation, or

(2) 1/12th of the participant's covered compensation as defined in Section 401(l)(5)(E) of the Internal Revenue Code.

This amount is then reduced for each year that the Social Security allowance applies prior to the participant's Social Security Normal Retirement Age. The reduction is at the rate of 6-2/3% for the first five years, at the rate of 5-1/3% for the next three years, at the rate of 4% for the next two years, at the rate of 2-2/3% for the next two years and by the actuarial equivalent rate for years in excess of twelve.

Accrued benefit

A participant who retires on his Normal Retirement Date will receive a monthly pension benefit, equal to the greater of 1. or 2. below:

(1) An amount equal to the following:

(a) 1.67% of the participant's Final Average Earnings multiplied by his or her benefit service not in excess of 30 years (not to exceed 50% of Final Average Earnings).

minus

(b) the Social Security Allowance.

(2) An amount equal to one percent of the participant's Final Average Earnings (not to exceed $900) multiplied by his or her Benefit Service.

For a participant who, as of December 31, 1995, was a participant in the Rainy River Pension Plan, an amount equal to the sum of the following:

1.25% of the participant's Final Average Earnings at retirement multiplied by his or her benefit service, as of December 31, 1995.

plus

The greater of 1. or 2. above where Benefit Service is that accrued after January 1, 1996.

Supplement 11 – Minimum Transition Benefit Provisions For Those Participants Who Were Part Of The Stone-Consolidated (US) Corporation Salaried Employees' Retirement Plan (Including Snowflake Mill) (continued)

Accrued benefit (continued)	For a participant who was previously a participant in the Retirement Plan for Salaried Employees of Consolidated Newsprint, an amount equal to the greater of 1. or 2. above using all years of benefit service, or the sum of the following: The frozen accrued benefit earned under the Consolidated Newsprint Plan as of January 1, 1992, which was merged into the Stone Container Salaried Plan as of this date. plus The greater of 1. or 2. Above, where Benefit Service is that accrued after January 1, 1992.

Eligibility for Benefits

Normal retirement	Age 65.
Early retirement	Age 55 and 10 years of Vesting Service.
Postponed retirement	A participant's deferred (late) retirement date is the first day of the month next following the day on which the participant retires after his or her Normal Retirement Date.

Benefits Paid Upon the Following Events

Normal retirement	Accrued benefit as of Normal Retirement Date.

SCHEDULE SB ATTACHMENTS

Early retirement

Early commencement of monthly pension income shall be an amount which is based on final average earnings and Benefit Service at the participant's early retirement date. Such monthly retirement income before the deduction of the Social Security allowance, if any, shall further be reduced by one-half percent (0.5%) for each full month that the benefit commences prior to age 65.

A participant of the Rainy River Pension Plan as of December 31, 1995 who attains age 55 with 10 years of vesting service will have his or her benefit attributed to prior plan service reduced according to the provisions of the Rainy River Pension Plan.

Supplement 11 – Minimum Transition Benefit Provisions For Those Participants Who Were Part Of The Stone-Consolidated (US) Corporation Salaried Employees' Retirement Plan (Including Snowflake Mill) (continued)

Early retirement (continued)	If a former participant of the Rainy River Pension Plan attains age 62 with 15 years of benefit service, the benefit attributed to service prior to December 31, 1995 is unreduced. A participant who was previously a participant in the Retirement Plan for Salaried Employees of Consolidated Newsprint, will receive an unreduced benefit if he has attained at least age 60 and his age plus benefit service is at least 80.
Postponed retirement	The amount of a participant's deferred (late) retirement benefit is paid in accordance with the determination of the Normal Retirement Benefit calculated above. In no event will the monthly retirement benefit which would be calculated at the participant's deferred (late) retirement date is less than the monthly retirement benefit payable at the participant's Normal Retirement Date.

Other Plan Provisions

Forms of payment	Single Life Annuity. Five Year Certain and Life Annuity for those prior participants of the Consolidated Newsprint Retirement Plan.
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. Supplement 11 – Prior Plan Provisions For Those Participants Who Were Part Of The Alabama River Newsprint Pension Plan

Plan Provisions

Participants	An Employee becomes a participant in the Plan on the January 1 or July 1 as of which he has completed a year of Participation Service. No employee hired after March 31, 2008 is eligible to participate in the plan.

Definitions

Service	Participation Service is the period of employment used in determining eligibility for participation in the Plan. A year of Participation Service is granted for the first year of employment and any subsequent calendar year in which an employee is credited with 1,000 or more hours of service. Vesting Service is the period of employment used in determining eligibility for benefits, measured by elapsed time from date of hire. Benefit Service is the period of employment used in determining the amount of pension benefits, measured by elapsed time from date of hire. Benefit service was frozen as of December 31, 2004.
Compensation considered	W-2 compensation excluding certain extraordinary payments plus Section 401(k) or 125 deferrals.
Average monthly Compensation	Average Monthly Compensation is obtained by taking 1/60 of the total Compensation of a participant during the 60 consecutive months within the last ten calendar years of service during which compensation was highest.
Accrued benefit	The monthly pension is an amount equal to one percent of Average Monthly Compensation, multiplied by years of Benefit Service.

Eligibility for Benefits

Normal retirement	Age 65.
Early retirement	Age 55 and completion of five years of vesting service.

Supplement 11 – Prior Plan Provisions For Those Participants Who Were Part Of The Alabama River Newsprint (continued)

Postponed retirement	First of any month after the participant's Normal Retirement Date.
Deferred vested	Termination for reasons other than death or retirement after completing three years of service.
Pre-retirement death	Death while eligible for normal, early, postponed or deferred vested retirement benefits, with a surviving spouse.

Benefits Paid Upon the Following Events

Normal retirement	Accrued benefit as of Normal Retirement Date.
Early retirement	The amount of early retirement pension deferred to Normal Retirement Date is determined as for the Normal Retirement Benefit considering Average Monthly Compensation plus Benefit Service as of date of termination. Payment of an early retirement pension prior to a participant's Normal Retirement Date is subject to a reduction of 1/15 for each of the first five years and 1/30 for each of the next five years that the date of benefit commencement precedes Normal Retirement Date.
Postponed retirement	Computed as the greater of (1) the normal retirement formula considering service and compensation as of actual retirement date, and (2) the normal retirement formula considering service and compensation at Normal Retirement Date and increased actuarially to actual date of retirement.

SCHEDULE SB ATTACHMENTS

Supplement 11 – Prior Plan Provisions For Those Participants Who Were Part Of The Alabama River Newsprint (continued)

Deferred vested

The amount of the pension is determined as for the Normal Retirement Benefit considering Average Monthly Compensation and Benefit Service as of date of termination and is payable at Normal Retirement Date.

A married vested participant who dies shall be eligible for a death benefit. The amount of the death benefit shall be the monthly pension due to the spouse had the joint and 50% survivor option been elected immediately before the death of the participant.

Payment of a deferred vested pension prior to a participant's Normal Retirement Date is subject to a reduction of 1/15 for each of the first five years and 1/30 for each of the next five years that the date of benefit commencement precedes Normal Retirement Date.

Pre-retirement death

In-Service or Post-Termination, Before Commencement

Payable to the spouse of a deceased vested participant who was credited with three years of Vesting Service and had not reached his Normal Retirement Date.

The amount of death benefit, payable as a life annuity, is 50% of the amount which would have been payable had the participant retired on his earliest possible retirement date and began receiving a reduced early retirement benefit payable in the 50% joint and survivor form which is actuarially equivalent to such benefit payable in a single life annuity form.

Post-Disability, Before Commencement

Same as In-Service or Post-Termination Death Benefit, except that Benefit Service credit continues during period of disability.

Other Plan Provisions

Forms of payment

Single life annuity for unmarried participants.

Unless he elects otherwise, a participant with an eligible spouse surviving on the date of his retirement receives his pension in the form of a 50% joint and survivor annuity.

Optional forms

Joint & 100% Survivor pension, Life with 5 years certain, Life with 10 years certain, and Lump sum.

Supplement 12 - Augusta Newsprint Company

Plan Provisions

Covered employees

Full-time employees who have attained age 20.

Benefits were frozen as of December 31, 2010 for non-grandfathered participants. In addition, no new entrants are allowed to enter the plan after December 31, 2010. Grandfathered participants continue to have ongoing benefit accruals.

The Augusta mill was closed effective January 13, 2020 and all future benefit accruals ceased.

Participation date

Date of becoming a covered employee.

Definitions

Participation

Each employee who was a participant on the effective date of this amended and restated plan, will continue to participate in the plan.

An employee will become a participant on the April 1 coinciding with or next following (a) the effective date of this amended and restated plan, or (b) the date he/she reaches age twenty (20) whichever is latest.

Any employee hired after his sixtieth (60^{th}) birthday, who was previously excluded from participation in the plan and who completes an hour of service on or after April 1, 1988, will become a participant on the later of (a) April 1, 1988, or (b) the April 1 coinciding with or following his satisfaction of the eligibility requirements of the plan.

No individual shall first become eligible to participate in the plan on and after January 1, 2011.

Grandfathered participant

A participant is grandfathered if as of December 31, 2010 (a) he has attained age fifty-five (55), (b) his attained age plus credited service are at least seventy (70), (c) he has 12 years of service and has incurred a disability, or (d) he is on layoff status and has a locally negotiated recall right, and otherwise would have satisfied the criteria of (a) or (b) above.

Vesting service

All employees are granted one year of service for each calendar year during which they are employed at least one day with the company. Full vesting occurs after 5 years of service.

Supplement 12 – Augusta Newsprint Company (continued)

Credited service	Active participants are granted one month of credited service for each calendar month during which they are employed for at least one day with the company. Credited service for periods after December 31, 2010 shall not be considered when calculating accrued benefits for non-grandfathered participants.
Transfers	For transfers into the plan, service with an affiliate will be recognized for both credited and vesting service. Benefits for such service will be provided by the affiliate. Transfers out of the plan to an affiliate will continue to receive vesting service but not credited service.
Pensionable earnings	Basic compensation during a calendar year, excluding overtime, bonuses, and other such extra compensation expense reimbursements, severance pay, payments made from the Resolute Forest Products DC Make-Up Program, and pensions or other forms of deferred compensation; limited to the 401(a)(17) compensation limit.
Final average compensation	Final average compensation is based on the 5 consecutive calendar years of employment prior to retirement or termination. Compensation for periods after December 31, 2010 shall not be considered when calculating accrued benefits for non-grandfathered participants.
Accrued benefit	The portion of the normal retirement benefit that is earned as of the date of determination. The accrued benefit for any non-grandfathered participant shall cease to accrue as of December 31, 2010. The accrued benefit for all participants was frozen as of January 13, 2020.

Eligibility for Benefits

Normal retirement	The first day of the month coincident with or next following attainment of age 65.
Early retirement	The first day of any month after attaining age 55 and completing 15 years of vesting service.

Supplement 12 – Augusta Newsprint Company (continued)

Postponed retirement	The first day of the month coinciding with or next following the actual date on which a participant terminates employment, after his Normal Retirement Date, for any reason other than death.
Vested termination	A participant who terminates employment for any reason other than retirement, death or disability after becoming vested in all or a portion of his accrued benefit will be entitled to a monthly retirement benefit beginning on his Normal Retirement Date.
Disability	A participant is eligible for a disability benefit the first day of any month, before a participant's normal retirement age, after a participant has completed over 12 years of service if eligible for Social Security disability benefits.
Preretirement death benefit	Eligible if fully vested.

Benefits Paid Upon the Following Events

Normal retirement	The monthly benefit is equal to 1-1/2% of final average compensation multiplied by credited service.
Early retirement	The monthly benefit is the accrued benefits as of early retirement date reduced .4% for each month that benefit commencement precedes normal retirement. Effective April 1, 2000, those participants whose attained age plus vesting service is greater than or equal to 85 can receive an unreduced benefit as early as age 62. However, benefits commencing prior to age 62 will still be reduced from age 65.
Postponed retirement	The late retirement benefit will be the greater of (a) the actuarial equivalent at late retirement age of the lump sum value of the normal retirement benefit increased 7% per year during the period following Normal Retirement Date up to actual retirement date, and (b) a benefit computed under the regular formula counting service and compensation up to actual date of retirement.

Supplement 12 – Augusta Newsprint Company (continued)

Vested termination	This benefit will equal his vested accrued benefit as of the date he terminated employment. A deferred vested participant who had completed at least 15 years of vesting service when he terminated employment may elect to have his benefits begin any date after he reaches age 55. The amount of the monthly benefit will be his vested accrued benefit reduced as stated under Early retirement benefit. However, he is not eligible for an unreduced benefit at age 62.
Disablement	Salaried participants are eligible to receive LTD benefits and are assumed to defer receipt of their disability benefit until Normal Retirement Date (NRD). At NRD the participant receives a monthly annuity equal to the normal retirement benefit calculated with compensation prior to disablement and continued Credited Service. Hourly participants are not eligible for LTD benefits and the accrued benefit on the disability retirement date (minimum accrued be = $200/month less any Workers' Compensation Benefit) is payable after being totally and permanently disabled for 5 months. There is no reduction for early c
Preretirement death	Upon the death of a vested participant, the surviving spouse will become eligible for a qualified joint and 50% survivor benefit when the participant would have been eligible for benefits, unless some other option has been elected.

Other Plan Provisions

Normal forms of payment	Life Annuity for unmarried participants. 50% joint and survivor annuity for married participants.
Optional forms	50%, 66-2/3%, 75%, or 100% ,joint and survivor annuity, life annuity with 5 or 10 years of payments certain to be made. Lump Sum (if the present value of the benefit is less than $5,000).

Supplement 12 – Augusta Newsprint Company (continued)

Optional form conversion factors	Optional forms of benefit, other than the lump sum, are calculated using a 7.0% interest rate and the 1971 Group Annuity Mortality Table for males projected to 1990 with a setback of six years for the beneficiary. Lump sums are calculated using the applicable interest rate in effect for the month of February immediately preceding the plan year, as well as the Applicable Mortality Table prescribed by Revenue Ruling 2008-85 for the year of payment.
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Schedule SB, Part V
Summary of Plan Provisions

Effective December 31, 2012, the AbiBow US Retirement Plan, the Abitibi Consolidated U.S. Retirement Plan, the Abitibi Consolidated U.S. Pension Plan for Certain Hourly-Paid Employees and the Augusta Newsprint Company Retirement Plan were merged into the AbiBow US Pension Plan. The newly merged plan maintains each of the prior plans' provisions. The name of the ongoing plan was changed effective January 1, 2013 to the Resolute FP US Pension Plan.

Supplement 1 - Coosa River Mill and Woodlands

Plan Provisions

Covered employees	All hourly employees who are paid on an hourly basis are eligible to participate in the plan on the later of April 1, 1997 and their date of hire. No new entrants to the plan are permitted after January 1, 2009.
Participation date	Date of becoming a covered employee.
Grandfathered participant	A participant who, as of December 31, 2010: • Is an employee who has attained age 55, • Is an employee whose age and years of benefit service total at least 70, • Has 10 years of vesting service and has incurred a disability, or is on layoff status and would have satisfied the age or points criteria listed above
Cessation of benefit accruals	Benefit accruals ceased for all participants other than grandfathered participants as of January 1, 2011.

Definitions

Vesting service	A year of vesting service is earned for each plan year in which an employee completes 1,000 or more hours of service. An employee may earn a partial year of service in the years of hire and termination.

SCHEDULE SB ATTACHMENTS

Supplement 1 - Coosa River Mill and Woodlands (continued)

Benefit service	A year of benefit service is earned for each plan year in which an employee completes the number of hours of service required by the twelve-month work schedule. An employee may earn a partial year of service in the year of hire, year of termination, and years where he has completed at least 1,000 hours of service.
Average monthly earnings	The average monthly earnings are the sum of the 5 years during which earnings were highest divided by the number of months during which earnings were received. Earnings include all compensation plus any amounts by which W-2 earnings have been reduced by reason of contributions to Section 125 and 401(k) plans; the maximum amount of annual earnings taken into account is limited by Section 401(a)(17) of the Internal Revenue Code.
Combined service benefit	The combined service benefit is a monthly benefit which is the greater of $600 or the normal retirement benefit payable to the participant utilizing service with Kimberly-Clark Corporation and U.S. Alliance.

Eligibility for Benefits

Normal retirement	Later of attainment of age 65 and the fifth anniversary of participation in the plan.
Early retirement	Attainment of age 55 and the completion of 5 years of vesting service.
Postponed retirement	Retirement after Normal Retirement Date.
Vested termination	Termination for reasons other than death or retirement after completing five years of vesting service.
Disability	Upon disablement after the completion of 10 years of vesting service.
Preretirement death benefit	Death while eligible for normal, early, postponed, or deferred vested retirement benefits, with a surviving spouse.

SCHEDULE SB ATTACHMENTS

Supplement 1 - Coosa River Mill and Woodlands (continued)

Benefits Paid Upon the Following Events

Normal retirement	The amount of the monthly benefit payable is the greatest of (a), (b), and (c) where (a) is $20.00 per year of benefit service, (b) is 1.125% of average monthly earnings multiplied by benefit service, and (c) is $100 less the Kimberly-Clark accrued benefit. Additional pension credit will be given for service after age 65 in the event of continued employment.
Early retirement	For participants with less than 10 years of vesting service, the monthly benefit payable immediately is the actuarial equivalent of the normal retirement benefit. For participants with 10 or more years of vesting service, the normal retirement benefit is reduced by 5% per year from the earlier of age 62 and the date the participant would have attained both age 60 and 30 years of vesting service.
Postponed retirement	The monthly pension benefit determined as of the actual retirement date.
Vested termination	Accrued normal retirement benefit, deferred until participant is eligible for and elects to receive an early, disability, or normal retirement benefit.
Disablement	A monthly benefit equal to the greater of $600 or the participant's Normal Retirement Benefit (unreduced for early commencement).
Preretirement death	Spouses of active participants with 10 or more years of vesting service or beyond normal retirement age are eligible to receive 50% of the participant's accrued benefit payable immediately following the participant's death. Spouses of certain inactive participants entitled to a future benefit and spouses of active participants with 5 but not 10 years of vesting service are eligible to receive 62.5% of the participant's accrued benefit reduced for form of payment and early commencement at the participant's earliest retirement date.

Supplement 1 - Coosa River Mill and Woodlands (continued)

Other Plan Provisions

Normal forms of payment	Single life annuity for unmarried participants. 62.5% joint and survivor annuity for married participants.
Optional forms	Life annuity with 120 guaranteed monthly payments. Level income option (early retirees only).
Actuarial Equivalence	Interest: 6.50% Morality: 417(e) mortality table
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Future Plan Changes

No future plan changes were recognized in determining pension cost or in determining minimum and maximum contributions. Willis Towers Watson is not aware of any future plan changes which are required to be reflected.

Changes in Benefits Valued Since Prior Year

None

Benefits Paid Upon the Following Events

Normal retirement	The amount of the monthly benefit payable is $16.00 per year of benefit service. The monthly benefit multiplier will increase to $17.00 effective January 1, 2006, $18.00 effective January 1, 2007, $19.00 effective January 1, 2008, $20.00 effective January 1, 2009, $21.00 effective January 1, 2010, and $22.00 effective January 1, 2011. Additional pension credit will be given for service after age 65 in the event of continued employment.
Early retirement	For participants with less than 10 years of vesting service, the monthly benefit payable immediately is the actuarial equivalent of the normal retirement benefit. For participants with 10 or more years of vesting service, the normal retirement benefit is reduced 5% per year from age 62. Participants who have attained age 60 and have 30 years of service receive an unreduced benefit.
Deferred vested termination	Accrued normal retirement benefit deferred until participant is eligible for and elects to receive an early, disability, or normal retirement benefit.
Disablement	Monthly benefit equal to the normal retirement benefit, payable immediately.
Preretirement death	Spouses of active participants with 15 or more years of vesting benefit service or age 57 with 10 or more years of vesting service, are eligible to receive 50% of the participant's accrued benefit payable immediately following the participant's death. Spouses of inactive participants entitled to a future benefit and spouses of active participants with 5 but not 10 years of vesting service are eligible to receive 62.5% of the participant's accrued benefit reduced for form of payment and early commencement at the participant's earliest retirement date.

Benefits Paid Upon the Following Events	
Normal retirement	Accrued Benefit at Normal Retirement Date.
Early retirement	For participants with less than 10 years of vesting service, the monthly benefit payable immediately is the actuarial equivalent of the normal retirement benefit. For participants with 10 or more years of vesting service, the normal retirement benefit is reduced 5% per year from the earlier of age 62 and the date the participant would have attained both age 60 and 30 years of vesting service.
Postponed retirement	Benefit is greater of accrued benefit at late retirement or actuarial equivalent of benefit at Normal Retirement Date.
Early commencement of vested benefits	Benefits may begin at age 55 or later and will be reduced as under Early Retirement.
Disablement	An unreduced annuity at Normal Retirement Date calculated using compensation as of last day worked and service projected to Normal Retirement Date.
Preretirement death benefit	50% of the participant's accrued benefit reduced for form of benefit and early commencement payable at the participant's earliest retirement date. Spouses of inactive participants terminated before 2002 and entitled to a future benefit are eligible to receive 62.5% of the participant's accrued benefit reduced for form of payment and early commencement at the participant's earliest retirement date.

Mill Trade	5%
Mill U.P.I.U.	5%
United Plant Guard Workers of America	6%
Office Union	6%
U.P.I.U. Woodland Employees	5%
Rice Farm Nursery	6%
U.P.I.U. Aroostook District	6%
Pinkham Lumber Company U.P.I.U. Mill Workers	5%[2]
Pinkham Lumber Company United Plant Guard Workers of America	5%
Woodlands Nonunion Hourly Employees	5%

For participants with 30 or more years of continuous service, all groups are reduced 4% per year from age 60.

[1] Credit Service was frozen on September 2, 1999. However, service was allowed to continue to October 1, 1999 for participants retiring by October 1, 1999. All participants in this supplement are inactive.

[2] Employees hired into this unit before March 1, 1995 are eligible for early retirement at age 55 with only five years of continuous service. Additionally, benefits are reduced 5% per year from age 62 instead of age 65.

A prorated payment was allowed if the participant was within two years of eligibility on the sale of Great Northern Paper (September 17, 1999).

Supplement 7 – GNP Hourly (continued)

Early retirement supplement

The participant will receive a monthly supplement in addition to the normal monthly benefit until age 62. The amount of monthly supplement is as follows:

Participating Group	Monthly Supplement
Mill Trade	$200.00
Mill U.P.I.U.	$200.00

Woodlands Nonunion Hourly Employees	$150.00

Supplemental distributions

Participants who continue to accrue continuous service after the sale of GNP and after electing early retirement may receive a supplemental distribution from the plan each time they reach eligibility for a more subsidized early retirement benefit if that benefit is more valuable than the cumulative value of prior distributions.

Postponed retirement

Normal retirement benefit determined as of actual retirement date.

Disablement

Payment is retroactive to the first day of disability. The amount of the monthly benefit is equal to the benefit accrued up through the date of disability. Certain collective bargaining agreements provide for the offset of Worker's Compensation or other disability benefits derived from employer contributions.

Supplement 7 – GNP Hourly (continued)

Preretirement death	REA requirements only to surviving spouses of vested participants as qualified preretirement survivor annuity. If married participant dies after earliest retirement age, spouse receives 50% qualified joint and survivor annuity as if participant had retired on date of death. If married participant dies before earliest retirement age, spouse receives qualified joint and survivor annuity as if participant terminates on date of death, survived to earliest retirement date, retired with immediate qualified joint and survivor annuity, and died on next day.
Temporary postretirement death benefits	The surviving spouse of a deceased retiree who was in receipt of benefits is eligible for a temporary monthly benefit. The benefit is payable to the spouse from age 55 (or spouse's current age if older) until the earlier of: Eligibility to receive unreduced widow's benefit from the Social Security Administration: - Remarriage, or - Death The amount of the temporary benefit is the monthly amount that the retiree was receiving or would have been receiving if the normal form was elected.

Other Plan Provisions

Optional forms	Single life annuity (normal form); 50% joint and survivor annuity 100% joint and survivor annuity Level income, and Lump Sum (for certain bargaining units).

SCHEDULE SB ATTACHMENTS

Supplement 7 – GNP Hourly (continued)

Actuarial Equivalence	Tabular factors are used in determining benefit amounts for most optional forms of payment. If tabular factors are not available, the assumed interest rate is 5.5% and mortality is based on the 1984 UP table with male ages set forward one year and female ages set back four years. Mortality rates are weighted 94% male and 6% female. For commencements after 2006, the 417(e) mortality table and 6.50% interest will be used if they produce a larger optional form benefit.
Lump Sum	Interest rate is equal to the IRC §417(e) Applicable Interest Rate in effect two months before the beginning of the applicable plan year containing the determination date. The mortality table is the IRC §417(e) Applicable Mortality Table in effect at the beginning of the applicable plan year containing the determination date.
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Supplement 8 - GNP Salaried

Plan Provisions

Covered employees

Participant in the Bowater Incorporated Plan for Salaried Employees of Great Northern Paper, Inc. as of August 17, 1999

Participation date

Date of becoming a covered employee.

Definitions

Compensation

All cash remuneration excluding stock options, certain expenses, and incentives, but including bonuses.

Accrued benefit

The retirement benefit is based on the personal Accruals Prior to the Sale of GNP account balance as of January 1, 1992. After January 1, 1992, the account is increased monthly through the addition of pay related credits and periodic adjustments. At normal retirement, the account balance is converted to an increasing monthly single life annuity by dividing the account balance by a factor of 210. On January 1, 2000, the plan was amended to use 225 as the converting factor. On January 1, 2003, the plan was amended to use 233 as the converting factor.

The monthly pay-related credit[3] consists of a basic amount and an additional amount. The basic amount is 4% of monthly pay. The additional amount is a percentage of pay according to the following table:

Age on 01/01/1990	Additional percentage
<40	0%
40-45	1%
46	2%
47	3%
48	4%
49	5%
50+	6%

[3] If retired by October 1, 1999, accruals were allowed to continue until October 1, 1999; otherwise accruals were frozen as of September 2, 1999.

Supplement 8 – GNP Salaried (continued)

Accrued benefit (cont.)

Only participants who were participants in the Great Northern Nekoosa Retirement Plan for Salaried Employees on December 31, 1990 receive the additional credit.

The monthly periodic adjustment is a percentage increase in the account balance. The rate of monthly increase is determined at the beginning of each plan year. The rate is calculated to give an annual percentage increase equal to the sum of:

(a) The average PBGC immediate interest rate for the previous plan year, and

(b) 0.75%

On January 1, 2000, the plan was amended for GATT. The monthly periodic adjustment was changed to be the IRC §417(e) Applicable Interest Rate with a two month look-back period.

The monthly benefit expressed as a straight single life annuity cannot be less than the monthly benefit as of December 31, 1990 accrued in the Great Northern Nekoosa Retirement Plan for Salaried Employees.

Eligibility for Benefits

Normal retirement	First of month coinciding with or next following the later of attainment of age 65.

Participation date	Participation is the first of the month following the month of hire or the first of the month coincident with or next following attainment of age 21.

Definitions

Vesting	No benefit prior to three years of service. Full vesting after three years of service.
Benefit and vesting service	One month of service for each month in which an hour of service is worked. The result is rounded up to the next tenth of a year.
Covered compensation	Annualized earnings including vacation pay and bonuses, but excluding severance pay, relocation expenses reimbursements, special bonuses, etc. In no event shall compensation exceed $230,000 for 2008.
Eligibility for minimum transition benefit	Any employee who as of December 31, 1998 was a participant and had attained at least age 50 is eligible.
Minimum transition benefit	Applicable only to the participants who are eligible. This is the actuarially equivalent lump sum value of the prior plan benefit at termination less the value of the employer-provided 401(k) balance accumulated since January 1, 1999, assuming the participant received the maximum employer match invested in the Stable Value fund of the Abitibi Consolidated Sales Corporation 401(k) plan. These provisions continue to accrue through December 31, 2003. The prior plan provisions are presented in this section following the current plan provisions.

SCHEDULE SB ATTACHMENTS

Supplement 11 – Abitibi Consolidated U.S. Retirement Plan (continued)

Accrued benefit	Equal to the actuarial equivalent of the account balance at retirement. For those eligible for the special minimum transition benefit, the account balance benefit is the greater of the cash balance account or the minimum transition benefit. This cannot be less than the actuarially equivalent value of the December 31, 1998, accrued benefit under the prior plan. In addition, the benefit cannot be less than the December 30, 2002 accrued benefit calculated prior to the mortality table change for lump sums.
Opening account balance	Determined as the actuarial single sum value of the benefit accrued under their prior plans as of December 31, 1998, (December 31, 2004 for Alabama River Newsprint participants) offset by any benefits accrued by participants who transferred from other qualified plans. (If eligible as of December 31, 1998 for early retirement under the prior plan, then use the present value of the early benefit.) For Alabama River Newsprint participants the December 31, 2004 accrued benefit is based on an early benefit payable at age 55 (or immediate age, if later). Actuarial assumptions are based on GATT 1995 mortality and 6% interest rate for December 31, 1998 opening account balances and GATT 2003 and 4.89% interest rate for December 31, 2004 opening account balances for Alabama River Newsprint participants.

Supplement 11 – Abitibi Consolidated U.S. Retirement Plan (continued)

Contribution credit

Specified percentage of participant's compensation based on the participant's attained age as of the end of the plan year or date of termination, if earlier. The applicable percentage is based on the table below.

Attained age	Contribution credit
Less than 30	4.0%
30 – 90	5.0%
40 – 49	6.0%
50 – 59	7.0%
60 – 69	8.0%

Those Alabama River Newsprint participants who were at least age 50 as of December 31, 2004 will receive an additional benefit of 2% of their base pay for years 2005 to 2009.

Contribution credits shall cease effective January 1, 2008 for all employees at the White Plains, New York office or employees who transferred from Abitibi Sales Corporation, Inc. to Bowater, Inc.

Contribution credits for all other employees cease effective June 30, 2008.

Interest credit/frequency change

Credited to the account at the end of the plan year or the date of termination, if earlier. Interest will continue to be credited until the last day of the month preceding the date of distribution. For terminations occurring mid-year, interest will be credited on the balance as of the beginning of the plan year containing the termination date using simple interest to the end of the month of termination. The interest rate is changed annually and based on the Thirty-Year Treasury Rate for November of the previous plan year.

Eligibility for Benefits

Normal retirement

Age 65 and three years of service for those who terminated after December 31, 2007. Age 65 and five years of service for those who terminated after December 31, 1994 and prior to January 1, 2008. Otherwise, age 65.

Early retirement

Not applicable except for minimum transition benefits. Plan allows for distribution of benefits at termination of employment.

Supplement 11 – Abitibi Consolidated U.S. Retirement Plan (continued)

Postponed retirement	Continued employment beyond Participant's Normal Retirement Date.
Vested termination	Termination for reasons other than death or retirement after completing 3 years of service.
Disability	Incapacity due to bodily injury or physical or mental disease that entitles the Participant to receive disability benefits under the Social Security Act.
Preretirement death benefit	Death while eligible for normal, early, postponed or deferred vested retirement benefits, with a surviving spouse.

Benefits Paid Upon the Following Events

Normal retirement	Accrued Benefit at Normal Retirement Date.
Early retirement	Not applicable except for minimum transition benefits. Plan allows for distribution of benefits at termination of employment.
Postponed retirement	The greater of: (a) the Actuarial Equivalent of the Participant's Accrued Benefit as of his Normal Retirement Date, or (b) the Participant's Accrued Benefit as of his Late Retirement Date.
Vested termination	Continued interest credits on cash balance account.
Disablement	Continue interest credits and contribution credits based on participant's last completed year of earnings.

SCHEDULE SB ATTACHMENTS

Preretirement death	Full lump sum available to a married or single employee (can name any beneficiary, subject to spousal consent) who dies before his benefits commence and who is vested in his benefit at the time of death. Qualified Pre-Retirement Survivor Annuity is available (50% J&S benefit).

SCHEDULE SB ATTACHMENTS

Supplement 11 – Abitibi Consolidated U.S. Retirement Plan (continued)

Other Plan Provisions

Forms of payment	The normal forms are the Five Year Certain and Life benefit for single participants and the 50% Joint & Survivor Annuity for married participants. Other forms of payment available are the Lump Sum Payment, the Life annuity, the 10 or 15 Year Certain and Life annuity and the 50% or 100% joint and survivor annuity. Mandatory cash-out No more than $1,000.
Actuarial Equivalence	The GATT 2003 mortality table (1994 Group Annuity Reserving Table projected to 2002 (unloaded and blended 50% male/50% female)) and the Thirty Year Treasury Rate for November of the plan year preceding the plan year of determination. This basis will be used for all interest crediting, lump sum calculations, and optional form conversions after December 30, 2002.
Reemployment service	Restore service if the participant was vested or the break in service did not exceed 5 years.

Supplement 11 – Abitibi Consolidated U.S. Retirement Plan (continued)

Treatment of rehires with terminations before 1/1/99	Establish opening account balance based on current lump sum value of prior plan accrued benefit if not otherwise already paid out.
Transfers into plan	Prior defined benefit plan: Receive service back to original date of hire for vesting and benefit service. The opening account balance will be calculated as if the participant were always in the cash balance plan and will be offset by the value of the accrued benefit earned from the plan from which the participant transferred. Where sufficient pay history is not available, past salaries will be estimated using the first salary available adjusted by past increases in the Social Security Wage Base. The value of the accrued benefit will be determined based upon the assumptions for actuarial equivalence as of the date of transfer. In addition, for those participants transferring from a Canadian plan, all past salaries and benefits will be adjusted by the exchange rate between Canada and the U.S. based upon the exchange rate in effect on the date of transfer for purposes of calculating the opening account balance. Prior defined contribution plan: Receive service back to original date of hire for vesting service. Benefit service will begin as of date of transfer. Opening account balance as of date of transfer will be zero.
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Future Plan Changes

Supplement 11 - Minimum Transition Benefit Provisions For Those Participants Who Were Part Of The Stone-Consolidated (US) Corporation Salaried Employee's Retirement Plan (Including Snowflake Mill)

Definitions

Vesting and benefit service	A participant will receive vesting service and benefit service for the period of employment by the Stone-Consolidated Companies commencing with the later of their date of hire or the plan's effective date. Participants will receive 1/12 of a year of service for each month in which they work at least 15 days.
Social Security Normal Retirement Age	Social Security Normal Retirement Age means the earliest age at which the participant is entitled to receive unreduced old age benefits from Social Security.
Final average earnings	A participant's final average earnings, while an eligible employee, means total earnings for services rendered (including overtime) during the highest consecutive 60-month period of the last 180 months of employment (as a covered employee) preceding the earlier of an employee's termination date or Normal Retirement Date, or the total earnings for the entire period of the participant's employment, if such period is less than 60 months, divided by the period for which an employee had earnings.
Social Security Final Average Compensation	"Social Security Final Average Compensation" means the average of the participant's earnings over the three consecutive completed plan years preceding his or her date of retirement, date of termination of employment, date of death or date of termination of the plan, but excluding earnings, in any year, in excess of the Social Security taxable wage base.

Supplement 11 – Minimum Transition Benefit Provisions For Those Participants Who Were Part Of The Stone-Consolidated (US) Corporation Salaried Employees' Retirement Plan (Including Snowflake Mill) (continued)

Social Security Allowance

The "Social Security Allowance" means 3/4% for each year of benefit service (up to 30 years) multiplied by the lesser of:

(1) 1/12th of the participant's Social Security final average compensation, or

(2) 1/12th of the participant's covered compensation as defined in Section 401(l)(5)(E) of the Internal Revenue Code.

This amount is then reduced for each year that the Social Security allowance applies prior to the participant's Social Security Normal Retirement Age. The reduction is at the rate of 6-2/3% for the first five years, at the rate of 5-1/3% for the next three years, at the rate of 4% for the next two years, at the rate of 2-2/3% for the next two years and by the actuarial equivalent rate for years in excess of twelve.

Accrued benefit

A participant who retires on his Normal Retirement Date will receive a monthly pension benefit, equal to the greater of 1. or 2. below:

(1) An amount equal to the following:

(a) 1.67% of the participant's Final Average Earnings multiplied by his or her benefit service not in excess of 30 years (not to exceed 50% of Final Average Earnings).

minus

(b) the Social Security Allowance.

(2) An amount equal to one percent of the participant's Final Average Earnings (not to exceed $900) multiplied by his or her Benefit Service.

For a participant who, as of December 31, 1995, was a participant in the Rainy River Pension Plan, an amount equal to the sum of the following:

1.25% of the participant's Final Average Earnings at retirement multiplied by his or her benefit service, as of December 31, 1995.

plus

The greater of 1. or 2. above where Benefit Service is that accrued after January 1, 1996.

Supplement 11 – Minimum Transition Benefit Provisions For Those Participants Who Were Part Of The Stone-Consolidated (US) Corporation Salaried Employees' Retirement Plan (Including Snowflake Mill) (continued)

Accrued benefit (continued)	For a participant who was previously a participant in the Retirement Plan for Salaried Employees of Consolidated Newsprint, an amount equal to the greater of 1. or 2. above using all years of benefit service, or the sum of the following: The frozen accrued benefit earned under the Consolidated Newsprint Plan as of January 1, 1992, which was merged into the Stone Container Salaried Plan as of this date. plus The greater of 1. or 2. Above, where Benefit Service is that accrued after January 1, 1992.

Eligibility for Benefits

Normal retirement	Age 65.
Early retirement	Age 55 and 10 years of Vesting Service.
Postponed retirement	A participant's deferred (late) retirement date is the first day of the month next following the day on which the participant retires after his or her Normal Retirement Date.

Benefits Paid Upon the Following Events

Normal retirement	Accrued benefit as of Normal Retirement Date.

SCHEDULE SB ATTACHMENTS

Early retirement

Early commencement of monthly pension income shall be an amount which is based on final average earnings and Benefit Service at the participant's early retirement date. Such monthly retirement income before the deduction of the Social Security allowance, if any, shall further be reduced by one-half percent (0.5%) for each full month that the benefit commences prior to age 65.

A participant of the Rainy River Pension Plan as of December 31, 1995 who attains age 55 with 10 years of vesting service will have his or her benefit attributed to prior plan service reduced according to the provisions of the Rainy River Pension Plan.

Supplement 11 – Minimum Transition Benefit Provisions For Those Participants Who Were Part Of The Stone-Consolidated (US) Corporation Salaried Employees' Retirement Plan (Including Snowflake Mill) (continued)

Early retirement (continued)	If a former participant of the Rainy River Pension Plan attains age 62 with 15 years of benefit service, the benefit attributed to service prior to December 31, 1995 is unreduced. A participant who was previously a participant in the Retirement Plan for Salaried Employees of Consolidated Newsprint, will receive an unreduced benefit if he has attained at least age 60 and his age plus benefit service is at least 80.
Postponed retirement	The amount of a participant's deferred (late) retirement benefit is paid in accordance with the determination of the Normal Retirement Benefit calculated above. In no event will the monthly retirement benefit which would be calculated at the participant's deferred (late) retirement date is less than the monthly retirement benefit payable at the participant's Normal Retirement Date.

Other Plan Provisions

Forms of payment	Single Life Annuity. Five Year Certain and Life Annuity for those prior participants of the Consolidated Newsprint Retirement Plan.
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. Supplement 11 – Prior Plan Provisions For Those Participants Who Were Part Of The Alabama River Newsprint Pension Plan

Plan Provisions

Participants	An Employee becomes a participant in the Plan on the January 1 or July 1 as of which he has completed a year of Participation Service. No employee hired after March 31, 2008 is eligible to participate in the plan.

Definitions

Service	Participation Service is the period of employment used in determining eligibility for participation in the Plan. A year of Participation Service is granted for the first year of employment and any subsequent calendar year in which an employee is credited with 1,000 or more hours of service. Vesting Service is the period of employment used in determining eligibility for benefits, measured by elapsed time from date of hire. Benefit Service is the period of employment used in determining the amount of pension benefits, measured by elapsed time from date of hire. Benefit service was frozen as of December 31, 2004.
Compensation considered	W-2 compensation excluding certain extraordinary payments plus Section 401(k) or 125 deferrals.
Average monthly Compensation	Average Monthly Compensation is obtained by taking 1/60 of the total Compensation of a participant during the 60 consecutive months within the last ten calendar years of service during which compensation was highest.
Accrued benefit	The monthly pension is an amount equal to one percent of Average Monthly Compensation, multiplied by years of Benefit Service.

Eligibility for Benefits

Normal retirement	Age 65.
Early retirement	Age 55 and completion of five years of vesting service.

Supplement 11 – Prior Plan Provisions For Those Participants Who Were Part Of The Alabama River Newsprint (continued)

Postponed retirement	First of any month after the participant's Normal Retirement Date.
Deferred vested	Termination for reasons other than death or retirement after completing three years of service.
Pre-retirement death	Death while eligible for normal, early, postponed or deferred vested retirement benefits, with a surviving spouse.

Benefits Paid Upon the Following Events

Normal retirement	Accrued benefit as of Normal Retirement Date.
Early retirement	The amount of early retirement pension deferred to Normal Retirement Date is determined as for the Normal Retirement Benefit considering Average Monthly Compensation plus Benefit Service as of date of termination. Payment of an early retirement pension prior to a participant's Normal Retirement Date is subject to a reduction of 1/15 for each of the first five years and 1/30 for each of the next five years that the date of benefit commencement precedes Normal Retirement Date.
Postponed retirement	Computed as the greater of (1) the normal retirement formula considering service and compensation as of actual retirement date, and (2) the normal retirement formula considering service and compensation at Normal Retirement Date and increased actuarially to actual date of retirement.

Supplement 11 – Prior Plan Provisions For Those Participants Who Were Part Of The Alabama River Newsprint (continued)

Deferred vested

The amount of the pension is determined as for the Normal Retirement Benefit considering Average Monthly Compensation and Benefit Service as of date of termination and is payable at Normal Retirement Date.

A married vested participant who dies shall be eligible for a death benefit. The amount of the death benefit shall be the monthly pension due to the spouse had the joint and 50% survivor option been elected immediately before the death of the participant.

Payment of a deferred vested pension prior to a participant's Normal Retirement Date is subject to a reduction of 1/15 for each of the first five years and 1/30 for each of the next five years that the date of benefit commencement precedes Normal Retirement Date.

Pre-retirement death

In-Service or Post-Termination, Before Commencement

Payable to the spouse of a deceased vested participant who was credited with three years of Vesting Service and had not reached his Normal Retirement Date.

The amount of death benefit, payable as a life annuity, is 50% of the amount which would have been payable had the participant retired on his earliest possible retirement date and began receiving a reduced early retirement benefit payable in the 50% joint and survivor form which is actuarially equivalent to such benefit payable in a single life annuity form.

Post-Disability, Before Commencement

Same as In-Service or Post-Termination Death Benefit, except that Benefit Service credit continues during period of disability.

Other Plan Provisions

Forms of payment

Single life annuity for unmarried participants.

Unless he elects otherwise, a participant with an eligible spouse surviving on the date of his retirement receives his pension in the form of a 50% joint and survivor annuity.

Optional forms

Joint & 100% Survivor pension, Life with 5 years certain, Life with 10 years certain, and Lump sum.

Supplement 12 – Augusta Newsprint Company (continued)

Credited service	Active participants are granted one month of credited service for each calendar month during which they are employed for at least one day with the company. Credited service for periods after December 31, 2010 shall not be considered when calculating accrued benefits for non-grandfathered participants.
Transfers	For transfers into the plan, service with an affiliate will be recognized for both credited and vesting service. Benefits for such service will be provided by the affiliate. Transfers out of the plan to an affiliate will continue to receive vesting service but not credited service.
Pensionable earnings	Basic compensation during a calendar year, excluding overtime, bonuses, and other such extra compensation expense reimbursements, severance pay, payments made from the Resolute Forest Products DC Make-Up Program, and pensions or other forms of deferred compensation; limited to the 401(a)(17) compensation limit.
Final average compensation	Final average compensation is based on the 5 consecutive calendar years of employment prior to retirement or termination. Compensation for periods after December 31, 2010 shall not be considered when calculating accrued benefits for non-grandfathered participants.
Accrued benefit	The portion of the normal retirement benefit that is earned as of the date of determination. The accrued benefit for any non-grandfathered participant shall cease to accrue as of December 31, 2010. The accrued benefit for all participants was frozen as of January 13, 2020.

Eligibility for Benefits

Normal retirement	The first day of the month coincident with or next following attainment of age 65.
Early retirement	The first day of any month after attaining age 55 and completing 15 years of vesting service.

Supplement 12 – Augusta Newsprint Company (continued)

Postponed retirement	The first day of the month coinciding with or next following the actual date on which a participant terminates employment, after his Normal Retirement Date, for any reason other than death.
Vested termination	A participant who terminates employment for any reason other than retirement, death or disability after becoming vested in all or a portion of his accrued benefit will be entitled to a monthly retirement benefit beginning on his Normal Retirement Date.
Disability	A participant is eligible for a disability benefit the first day of any month, before a participant's normal retirement age, after a participant has completed over 12 years of service if eligible for Social Security disability benefits.
Preretirement death benefit	Eligible if fully vested.

Benefits Paid Upon the Following Events

Normal retirement	The monthly benefit is equal to 1-1/2% of final average compensation multiplied by credited service.
Early retirement	The monthly benefit is the accrued benefits as of early retirement date reduced .4% for each month that benefit commencement precedes normal retirement. Effective April 1, 2000, those participants whose attained age plus vesting service is greater than or equal to 85 can receive an unreduced benefit as early as age 62. However, benefits commencing prior to age 62 will still be reduced from age 65.
Postponed retirement	The late retirement benefit will be the greater of (a) the actuarial equivalent at late retirement age of the lump sum value of the normal retirement benefit increased 7% per year during the period following Normal Retirement Date up to actual retirement date, and (b) a benefit computed under the regular formula counting service and compensation up to actual date of retirement.

Supplement 12 – Augusta Newsprint Company (continued)

Vested termination	This benefit will equal his vested accrued benefit as of the date he terminated employment. A deferred vested participant who had completed at least 15 years of vesting service when he terminated employment may elect to have his benefits begin any date after he reaches age 55. The amount of the monthly benefit will be his vested accrued benefit reduced as stated under Early retirement benefit. However, he is not eligible for an unreduced benefit at age 62.
Disablement	Salaried participants are eligible to receive LTD benefits and are assumed to defer receipt of their disability benefit until Normal Retirement Date (NRD). At NRD the participant receives a monthly annuity equal to the normal retirement benefit calculated with compensation prior to disablement and continued Credited Service. Hourly participants are not eligible for LTD benefits and the accrued benefit on the disability retirement date (minimum accrued be = $200/month less any Workers' Compensation Benefit) is payable after being totally and permanently disabled for 5 months. There is no reduction for early c
Preretirement death	Upon the death of a vested participant, the surviving spouse will become eligible for a qualified joint and 50% survivor benefit when the participant would have been eligible for benefits, unless some other option has been elected.

Other Plan Provisions

Normal forms of payment	Life Annuity for unmarried participants. 50% joint and survivor annuity for married participants.
Optional forms	50%, 66-2/3%, 75%, or 100% ,joint and survivor annuity, life annuity with 5 or 10 years of payments certain to be made. Lump Sum (if the present value of the benefit is less than $5,000).

Supplement 12 – Augusta Newsprint Company (continued)

Optional form conversion factors	Optional forms of benefit, other than the lump sum, are calculated using a 7.0% interest rate and the 1971 Group Annuity Mortality Table for males projected to 1990 with a setback of six years for the beneficiary. Lump sums are calculated using the applicable interest rate in effect for the month of February immediately preceding the plan year, as well as the Applicable Mortality Table prescribed by Revenue Ruling 2008-85 for the year of payment.
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Schedule SB, Line 23
Information on Use of Substitute Mortality Tables

Different mortality tables were used for before and after retirement. Per instructions, Item 23 reflects that the annuitant mortality will apply to the entire population. Below is the break out of the current population.

Population description	Population size	Mortality table
Non-annuitants (Active employees and participants with deferred benefits)	**921**	Pre-retirement: IRS prescribed fully generational table based on the RP/MP-2014 Society of Actuaries study and subsequent updates (including, for 2023 plan years, the use of the MP-2021 mortality improvement scale). Post-retirement: Plan specific mortality approved by the IRS.
Male and Female annuitant only	**3810**	Plan specific mortality approved by the IRS

SCHEDULE SB ATTACHMENTS

Schedule SB, Line 23
Information on Use of Substitute Mortality Tables

Substitute mortality tables are used for the following plan populations:

Mortality is assumed to occur according to a plan-specific substitute mortality table with separate male and female rates, as approved by the IRS in 2019 for valuations for the 2019 through 2023 plan years. The mortality rates are applied to all annuitants (including disabled annuitants). The prescribed tables apply for non-annuitants (including disabled non-annuitants) before retirement. The tables were developed based on the mortality experience of the annuitant populations for qualified defined benefit pension plans sponsored by Resolute FP US Inc. for the period January 1, 2013 through December 31, 2017. The tables are generational, based on the IRS-prescribed projection scale MP-2020, with a base year of 2015. The table below presents illustrative rates for the base year.

Percentage of Participants Expected to Die Within One Year		
Age	Males	Females
25	0.0524%	0.0198%
30	0.0516%	0.0241%
35	0.0603%	0.0334%
40	0.0714%	0.0471%
45	0.1654 %	0.1092%
50	0.4540%	0.3017%
55	0.6420%	0.4139%
60	0.8792%	0.6108%
65	1.2603%	0.9275%
70	1.9110%	1.4649%
75	3.0791%	2.3982%
80	5.1921%	4.0712%
85	9.0628%	7.2261%
90	15.8551%	12.8176%

The single mortality ratio for both genders of the aggregated pension plans is equal to 1.153039. The partial credibility weighting factor for the population determined pursuant to § 1.430(h)(3)-2(e)(2) is 0.598389. The single mortality ratio for both genders of the aggregated pension plans after reflecting the partial credibility weighting factor is 1.091577.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITOR'S REPORT

To the Employee Welfare Benefits Plan Committee of
FMC Corporation

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the FMC Corporation Employees' Retirement Program (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

MITCHELL TITUS

- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions,

misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Matter — Supplemental Schedules Required by ERISA

The supplemental schedules of assets (held at end of year) as of December 31, 2024 and reportable transactions for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including its form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(1) Description of the Plan and the Trust

The FMC Corporation Employees' Retirement Program (the Plan) was established effective September 30, 1941. The Plan was subsequently amended and certain plans were subsequently merged into it, including certain frozen and union plans.

All of the assets of the Plan will be available to pay benefits to participants of the Plan; however, the Plan retains the distinct benefit structures of each of the prior plans. The plan document contains additional information about the Plan.

The FMC Corporation Defined Benefit Retirement Trust assets are reported under the investment accounts as of December 31, 2024.

The investment decisions related to the Plan are made by the Pension Investment Subcommittee of the Employee Welfare Benefits Plan Committee of FMC Corporation (the Company and Plan Sponsor).

The following provisions of the Plan apply to the salaried and nonunion hourly employees of the Company; however, effective July 1, 2007, all newly hired and rehired salaried and nonunion hourly employees of the Company are not eligible for the Plan:

- The normal retirement age is 65. A participant who terminates employment prior to completing five years of service is not eligible to receive a pension under the Plan, unless he/she has attained normal retirement age. The normal monthly benefit amount for salaried and nonunion hourly employees is calculated by the formula below:

  Equal to the sum of [(1) + (2)] times (3), plus (4) where:

  (1) 1.0% of final average earnings up to allowable Social Security covered compensation, plus 1.5% of final average earnings over allowable Social Security covered compensation times years of credited service projected to age 65 (up to 35 years).

  (2) 1.5% of final average earnings times years of credited service projected to age 65 (in excess of 35 years).

  (3) Ratio of years of credited service as of termination to years of credited service projected to age 65.

  (4) $1 for each $120 of unwithdrawn employee contributions accumulated with interest.

Participants are entitled to early retirement following attainment of age 55 and 10 years of service. The Plan also has provisions for benefits for the surviving spouse or beneficiary of a participant.

The following provisions of the Plan apply to employees covered by the Baltimore Union[(1)]; Green River Union[(1)(2)]; Buffalo Union[(1)]; Middleport Union; Newark, Delaware Union[(3)]; and Spring Hill Union[(1)] benefit structures:

- Effective February 1, 2013 all newly hired or rehired employees covered by the Middleport Union are not eligible for the Plan. In addition, effective March 31, 2013, Middleport Union employees who, as of January 31, 2017 are not age 55 and do not have 10 years of credited service will cease to accrue additional benefits under the Plan. These employees will be fully vested in their accrued benefits and continue to receive service credit for early retirement eligibility. Employees who were aged 55 years and had at least 10 years of credited service on or before January 31, 2017 are designated as "grandfathered employees" and accrued benefits until January 31, 2017. Benefit accruals for all Middleport union employees ceased on January 31, 2017.
- The normal retirement age is age 65. A participant who terminates employment prior to completing five years of service is not eligible to receive a pension under the Plan. The normal monthly benefit amount ranges between $38.50 and $86.25 times years of service.

(continued)

- Participants are entitled to early retirement following attainment of age 55 and 10 years of credited service. For early retirement, the benefit is reduced by early retirement reduction factors outlined in the Plan.
- Union hourly participants at the former Baltimore location who retire on or after June 1, 2000 and after attainment of age 62 receive a supplemental early retirement benefit payable until age 65. The amount of the early retirement supplement is equal to the difference between the participant's benefit before reduction for early retirement and the participant's benefit after reduction for early retirement.
- Certain union participants may be eligible for disability benefits after completing 10 to 15 years of service; some union groups also require attainment of age 40 to 45; the Newark groups do not offer a disability benefit. The Plan also has provisions for benefits for the surviving spouse of a participant.

---

(1) The Company no longer has operations at these locations.

(2) On April 1, 2015, the Company sold its Alkali Chemical division and, as a result, benefits accruals for all Green River participants ceased.

(3) On November 1, 2017, the Company sold its FMC Health and Nutrition segment and, as a result, benefits accruals for the Newark, Delaware Union ceased.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements are presented on the accrual basis of accounting.

(b) Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. See Note 10 for a discussion of fair value measurements. Security transactions are recognized on a trade-date basis. Net appreciation (depreciation) includes gains and losses on investments bought and sold as well as held during the year. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The Plan reached fully funded status during 2018. The primary investment strategy is a liability hedging approach with an objective of maintaining the funded status of the plan such that the funded status volatility is minimized and the likelihood that the Company will be required to make significant contributions to the plan is limited. The portfolio is primarily comprised of fixed income securities and cash. Investment performance and related risks are measured and monitored on an ongoing basis through monthly liability measurements, periodic asset liability studies, and quarterly investment portfolio reviews.

(c) Financial Instruments

Our financial instruments include employer contribution receivables, receivables due from brokers, accrued expenses and payables due to brokers. The carrying value of these financial instruments approximates their fair value.

(d) Administrative Expenses

All administrative expenses are paid from the Plan unless the Company, at its discretion, pays such expenses.

(continued)

(e) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

(f) Payment of Benefits

Benefit payments to participants are recorded when paid.

(3) Funding Policies

The Company contributes to the Plan such sums as are actuarially determined to be necessary to provide defined pension benefits to participants, maintain certain acceptable funding levels, and ensure that all contributions are deductible for federal income tax purposes.

The Company did not make any contributions to the Plan for either the 2024 or 2023 plan years. The Plan met the minimum funding requirements of the Employee Retirement Income Security Act of 1974 (ERISA) for years ended December 31, 2024 and 2023.

(4) Plan Termination

Although it has not expressed a desire to do so, the Company has the right under the Plan to discontinue its contribution at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

(a) Unwithdrawn employee contributions.

(b) Benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The amount is limited to the lowest benefit that would be payable under the Plan's provisions in effect at any time during the five years preceding plan termination.

(c) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations (discussed below).

(d) All other benefits (that is, vested benefits not insured by the PBGC).

(e) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal retirement age benefits, early retirement benefits, and certain disability and survivor benefits. However, the PBGC does not guarantee all types of benefits provided by the Plan, and the amount of benefit protection from the PBGC is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan termination. However, a statutory ceiling exists, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2024, that ceiling was $7,108 per month. For plan terminations occurring during 2023, that ceiling was $6,750 per month. The ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and who are 65 years old at the time of retirement or plan termination (whichever comes later). For annuitants who elect to receive their benefits in a payment form that is more valuable than a single-life annuity, or who elect to commence their payments prior to age 65, the statutory ceiling is actuarially adjusted downward. The PBGC maximum benefit is adjusted upward for participants who commence their payments later than age 65.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

(5) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died, and present employees or their beneficiaries. Benefits payable under all circumstances (retirement, death, disability, and termination) are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary from Aon plc and is an amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest), expected salary changes and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation as of January 1, 2024 (the most recent valuation date), were as follows:

- The interest rate used to compute the present value of accrued benefits changed from 4.75% to 4.50%
- Pri-2012 Table with projection scale MP-2021 remained the same as last year

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Company were to terminate the Plan, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The total actuarial present value of accumulated plan benefits as of January 1, 2024 consisted of the following:

Vested benefits:		
Participants currently receiving benefits	$	868,345,491
Participants with deferred benefits		124,641,046
Other participants		51,299,607
Total vested benefits	$	1,044,286,144
Nonvested benefits		1,625,297
Total actuarial present value of accumulated plan benefits	**$**	**1,045,911,441**

The reasons for the change in the actuarial present value of accumulated plan benefits during 2023 were as follows:

Beginning balance, January 1, 2023	$	1,050,059,133
Assumption changes (1)	$	22,435,204
Other changes		7,274,989
Interest accumulation		47,957,242
Benefits paid		(81,815,127)
Total change in actuarial present value of accumulated plan benefits	$	(4,147,692)
Ending balance, January 1, 2024	**$**	**1,045,911,441**

(1) Amount reflects a change in the interest rate assumption.

(continued)

(6) Tax Status

The Plan received a favorable determination letter from the Internal Revenue Service, dated October 27, 2015, indicating that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC) and exempt from federal income taxes. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC.

In accordance with U.S. GAAP, Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2021.

(7) Investments

All of the investment information disclosed in the accompanying financial statements and supplemental schedules were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by The Bank of New York Mellon Corporation, the trustee. Investments at fair value at December 31, 2024 and 2023 are as follows:

	2024	2023
Cash and short-term investments	$ 847,012	$ 2,840,745
U.S. government securities and other instruments	273,952,794	249,490,781
Corporate debt	589,061,503	660,943,014
Investment contracts with insurance company	104,636,558	111,243,119
Registered investment companies	51,959,707	52,205,543
Total investments at fair value	**$ 1,020,457,574**	**$ 1,076,723,202**

Interest and dividend income for years ended December 31, 2024 and 2023 was $37,190,240 and $36,920,161, respectively. Net appreciation (depreciation) in fair value of investments for the years ended December 31, 2024 and 2023 was $(28,184,023) and $47,457,860, respectively.

(8) Related-Party Transactions

As of December 31, 2024 and 2023, certain plan investments are securities of The Bank of New York Mellon Corporation., the trustee, and, therefore, qualify as a party-in-interest.

(9) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, foreign currency, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Certain investment managers, who invest the assets of the trust on the Plan's behalf, invest in fixed income securities, some of which are credit contracts or interest rate contracts. These types of investments may expose the Plan to credit risk and risk surrounding the amount of interest payments and the value of debt instruments. The investment managers occasionally enter into derivative contracts designed to reduce the credit risk and interest rate risk. Although these contracts are entered into with the intention of mitigating this risk, they do not meet the criteria for U.S. GAAP hedge accounting set forth under U.S. GAAP accounting literature on the accounting for derivative instruments and hedging activities. Gains and losses

(continued)

on the derivative contracts are recorded in the net appreciation (depreciation) in fair value of investments line of the statements of changes in net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

(10) Fair Value Measurements

The Plan has categorized its assets that are recorded at fair value, based on the priority of the inputs to the valuation technique, into a three-level fair value hierarchy. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The Plan's recurring financial assets recorded on the statements of net assets available for benefits are categorized based on the inputs to the valuation techniques as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs other than Level 1 that are observable, such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the asset or liability.

Level 3 – Inputs based on prices or valuation techniques that are both unobservable and significant to the overall fair value measurement. These unobservable inputs reflect the Plan's own assumptions about the assumptions a market participant would use in pricing the asset or liability. There were no Level 3 assets held as of December 31, 2024 and 2023.

If the inputs used to measure the financial assets fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 as compared to December 31, 2023.

Cash and short-term investments:

A portion of cash and short-term investments are valued based on quoted prices for identical securities in active markets, which are presented as Level 1. A majority of cash and short-term investments are treated as cash equivalents valued based on quoted prices for similar securities in inactive markets or observable market data and are presented as Level 2.

U.S. government securities:

A majority of U.S. government securities are valued based on unadjusted quoted prices of identical market transactions. As a result, these investments are presented as Level 1. A portion of the U.S. government securities are valued at the end of the month based on observable inputs. These investments are presented as Level 2.

Other instruments:

A portion of other instruments, such as futures contracts, are valued based on unadjusted prices in active markets. As a result, these investments are presented as Level 1. A majority of the other investments are valued at the end of the month based on observable inputs, including local government and non-U.S. government bonds. These investments are presented as Level 2.

(continued)

Corporate debt:

Represents fixed income securities in the form of intermediate and long term bonds. These securities are valued at the end of the month based on observable inputs, therefore they are presented as Level 2.

Investment contracts with insurance company:

These investments are part of an investment contract issued by Prudential insurance company. The underlying securities primarily include U.S. treasury and agency bonds, government agency bonds, corporate bonds, asset backed securities and cash. The fair value of these financial instruments are determined based on net asset value (NAV). NAV is based on the value of the underlying assets owned by the funds, less their liabilities. The Plan has concluded that the NAV reported by the funds is the fair value of these investments. The majority of the underlying securities held by Prudential are quoted on an active market, however a portion of the underlying securities are not directly traded on active markets. As such, these investment contracts are presented as Level 2.

Registered investment companies:

The fair value of the investments in registered investment companies is determined using NAV. The NAV of the investments is quoted daily on an active market and therefore is presented as Level 1.

The following tables present the Plan's fair value hierarchy for those financial assets measured at fair value on a recurring basis in the Plan's statements of net assets available for benefits as of December 31, 2024 and 2023. The Plan currently does not have nonfinancial assets, nonfinancial liabilities, financial assets, or financial liabilities measured at fair value on a nonrecurring basis.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

For ERISA Requirements

Interest Rates for Minimum Funding Purposes	Based on segment rates with a four-month lookback (as of September 2023), each adjusted as needed to fall within the 25-year average interest rate stabilization corridor under ARPA.
1st Segment Rate	4.75%
2nd Segment Rate	4.87%
3rd Segment Rate	5.59%
Interest Rates for Maximum Tax Purposes	Based on segment rates with a four-month lookback (as of September 2023), without regard to interest rate stabilization.
1st Segment Rate	3.62%
2nd Segment Rate	4.46%
3rd Segment Rate	4.52%
Salary Increases	
Minimum Funding Target Normal Cost	See Table 1
Maximum Tax Expected Benefit Increase	See Table 1
Social Security Wage Base Increases	Future wage indices are based on a national wage increase of 4.00% per year.
Optional Payment Form Election Percentage	45% life annuity 20% joint and 50% survivor annuity 35% joint and 100% survivor annuity
Optional Payment Form Conversion Interest Rate	6.00%
Optional Payment Form Conversion Mortality	RP-2000CH Mortality table (weighted 80% male and 20% female)
Retirement Age	
Active Participants	See Table 2
Terminated Vested Participants	Age 62
Mortality Rates	
Healthy and Disabled	2024 generational mortality tables for annuitants and non-annuitants per §1.430(h)(3)-1(b).
Withdrawal Rates	See Table 3
Disability Rates	See Table 4

Decrement Timing	Middle of year decrements (except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%).
Surviving Spouse Benefit	It is assumed that 75% of males and 75% of females have an eligible spouse, and that males are three years older than their spouses.
Valuation Compensation	The greater of the annual salary rate and adjusted 2023 pensionable earnings. 2023 pensionable earnings have been adjusted to recognize bonus paid in 2023 rather than bonus earned in 2023.
Benefit and Compensation Limits	Projected benefits and compensation are limited by the current IRC section 415 maximum benefit of $275,000 and the IRC section 401(a)(17) compensation limit of $345,000.
Valuation of Plan Assets	Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value. A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).
Expected Return on Assets	
2022 Plan Year	2.50%
2023 Plan Year	4.75%
2024 Plan Year	4.50%
Trust Expenses Included in Target Normal Cost	Based on the prior year's actual plan administrative expenses (excluding PBGC premiums) plus the estimated PBGC premiums for the current year, rounded to the nearest $100,000.
Actuarial Method	Standard unit credit cost method
Valuation Date	January 1, 2024

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, line 22 — Description of Weighted Average Retirement Age

The average retirement age shown in line 22 has been calculated by assuming the following retirement rates and no decrements other than retirement for this calculation. All retirements are assumed to occur at mid-year, except for the 100% retirement age.

(a) Age	(b) Rate	(c) Weight	(d) Product (a) × (b) × (c)

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

For ERISA Requirements

Interest Rates for Minimum Funding Purposes	Based on segment rates with a four-month lookback (as of September 2023), each adjusted as needed to fall within the 25-year average interest rate stabilization corridor under ARPA.
1st Segment Rate	4.75%
2nd Segment Rate	4.87%
3rd Segment Rate	5.59%
Interest Rates for Maximum Tax Purposes	Based on segment rates with a four-month lookback (as of September 2023), without regard to interest rate stabilization.
1st Segment Rate	3.62%
2nd Segment Rate	4.46%
3rd Segment Rate	4.52%
Salary Increases	
Minimum Funding Target Normal Cost	See Table 1
Maximum Tax Expected Benefit Increase	See Table 1
Social Security Wage Base Increases	Future wage indices are based on a national wage increase of 4.00% per year.
Optional Payment Form Election Percentage	45% life annuity 20% joint and 50% survivor annuity 35% joint and 100% survivor annuity
Optional Payment Form Conversion Interest Rate	6.00%
Optional Payment Form Conversion Mortality	RP-2000CH Mortality table (weighted 80% male and 20% female)
Retirement Age	
Active Participants	See Table 2
Terminated Vested Participants	Age 62
Mortality Rates	
Healthy and Disabled	2024 generational mortality tables for annuitants and non-annuitants per §1.430(h)(3)-1(b).
Withdrawal Rates	See Table 3
Disability Rates	See Table 4

Decrement Timing	Middle of year decrements (except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%).
Surviving Spouse Benefit	It is assumed that 75% of males and 75% of females have an eligible spouse, and that males are three years older than their spouses.
Valuation Compensation	The greater of the annual salary rate and adjusted 2023 pensionable earnings. 2023 pensionable earnings have been adjusted to recognize bonus paid in 2023 rather than bonus earned in 2023.
Benefit and Compensation Limits	Projected benefits and compensation are limited by the current IRC section 415 maximum benefit of $275,000 and the IRC section 401(a)(17) compensation limit of $345,000.
Valuation of Plan Assets	Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value. A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).
Expected Return on Assets	
2022 Plan Year	2.50%
2023 Plan Year	4.75%
2024 Plan Year	4.50%
Trust Expenses Included in Target Normal Cost	Based on the prior year's actual plan administrative expenses (excluding PBGC premiums) plus the estimated PBGC premiums for the current year, rounded to the nearest $100,000.
Actuarial Method	Standard unit credit cost method
Valuation Date	January 1, 2024

Schedule SB Attachment (Form 5500) —2024 Plan Year
FMC Corporation Employees' Retirement Program
EIN: 94-0479804 PN: 047

Schedule SB, Part V — Summary of Plan Provisions

History of Plan

The FMC Corporation Salaried Employees' Retirement Plan was established as the Employees' Retirement Plan effective in 1941. The plan was amended effective October 25, 1974, and additional changes were made effective January 1, 1976. The plan was revised and restated to comply with ERISA effective January 1, 1976.

Effective July 1, 1978, the plan was changed from participation at age 25 to immediate participation from date of hire and to credit all service from date of hire rather than from age 25. The 30-year maximum on service credit was removed on the minimum benefit formula and on the final average pay portion of the offset benefit formula. The maximum offset for Social Security is still 50%, however.

Effective January 1, 1979, the salaried participants of the Retirement Plan for Non-Union Employees of Sun Cleanser Company and the Marine Colloids Salaried Employees' Retirement Plan were merged into this plan.

On November 1, 1979, a cost-of-living increase was granted to retired employees. Effective January 1, 1980, the plan was changed to base benefits at early retirement or vested termination on expected service at 65, with the maximum offset for Social Security still 50%, times the ratio of actual service to expected service. In addition, effective January 1, 1980, three new locations were covered by this plan.

On November 1, 1980, the Industrial Packaging group was sold and benefits for these employees were frozen.

On June 1, 1981, Engineered Systems was sold and all employees became immediately vested. On September 28, 1981, Power Transmission was sold and benefits for these employees were frozen. For both sales, both the assets and liabilities associated with the groups were retained in the Salaried Plan.

Effective April 1, 1981, the preretirement survivor's spouse benefit provisions were improved.

Effective December 31, 1981, the Hourly Plans of the Power Transmission division and the Fiber Hourly Plan of the American Viscose division were merged into the Salaried Plan. Prior to the merger date, part of the assets from the Power Transmission Plans and the American Viscose Plan were dedicated to immunized funds with the Metropolitan Life Insurance Company.

On April 1, 1982, the Outdoor Power Equipment Division in Port Washington was sold and benefits for these employees were frozen. The assets and liabilities for this group were retained in the Salaried Plan.

Effective January 1, 1984, the 5-year certain and life normal form of payment was removed. Unreduced benefits will only be paid on a life annuity basis.

Effective January 1, 1984, the following plans were merged into the Salaried Plan:

- FMC Retirement Plan for Hourly Employees - Industrial Chemical Division, Lyndhurst, New Jersey
- Nonunion Employees of the McAllen Location Who Formerly Participated in the FMC Corporation Retirement Plan for Shop Hourly Employees of Designated Production and Service Facilities
- FMC Corporation Retirement Plan for Shop Hourly Employees of Designated Production and Service Facilities

On August 31, 1984, the Mining Equipment Division was sold. Benefits for the salaried and nonunion hourly employees at this location were frozen as of December 31, 1984. Assets and liabilities for this group were retained in the plan.

Effective January 1, 1985, preretirement death benefits were extended to active employees who are eligible for vesting and to employees who have terminated with vested benefits.

On August 16, 1985, the South Charleston and Livonia divisions were sold. Benefits were frozen as of the sale date; however, employees earn vesting credit with the purchasing company. The assets and liabilities for these locations were retained in the plan.

Effective November 30, 1985, certain participants were spun-off into another plan. Annuities covering accrued benefits were purchased for all participants in the spun-off plan as well as for participants in the continuing plan. Both participating and nonparticipating annuities were purchased with the assets associated with the participating annuities remaining a part of the current trust. The spun-off plan was terminated with the surplus assets reverting to FMC Corporation.

The following locations were sold on the effective date specified. In general, benefit accruals ceased on the sale dates with employees being allowed to vest in their post 11/30/85 accrued benefits by earning additional vesting service with the purchasing companies. The assets and liabilities for these groups were retained in the plan.

Industrial Brush	12/31/1985
Turbo Pump	11/25/1986
FMC Finance	11/30/1986
Beverage Equipment	12/19/1986

Effective January 1, 1988, the plan was amended to allow service accrual beyond age 65.

Effective December 31, 1988, the Lexington location was sold and benefits for these employees were frozen. Employees are allowed to earn additional vesting service with the purchasing company. Assets and liabilities for this group were retained in the Salaried Plan.

Effective January 1, 1989, the plan was amended to reduce the vesting requirements from 10 years to five years of service.

Effective January 1, 1989, the following union hourly plans were merged into this plan: Closed Operations, Lakeland, Hollister, Wellhead-Houston, Tipton, Bayport, Cedar Rapids, IBO-Pomona, MCD-Rockland, Colmar, and MED-Fairmont.

On December 28, 1990, the Green River union hourly plan was merged into the Salaried Plan.

Effective January 1, 1991, the plan's benefits were improved with the adoption of a new formula. The prior plan was considered a Social Security "offset" plan, and this has been revised to recognize covered compensation under Social Security in the form of an "excess" plan. In addition, the definition of final average earnings was revised to base pay on the highest consecutive 60 months during the last ten years rather than the five highest consecutive calendar years.

Effective April 1, 1992, the Pomona Sweeper location was sold and benefits for these employees were frozen. Employees are allowed to earn additional vesting service with the purchasing company. Assets and liabilities for this group were retained in the Salaried plan.

Effective May 27, 1994, assets and liabilities from the Jetway Systems Division of Pneumo Abex Corporation were spun off from their existing pension plans and merged into the FMC Salaried Plan. Salaried and nonunion hourly employees of Jetway Systems will accrue benefits for all past and future service according to the FMC Salaried Plan formula. Union hourly Jetway Systems employees continue to accrue benefits according to their prior plan formula.

Effective September 1, 1994, the benefit formula for union hourly Jetway Systems employees was changed. Prior to the change, benefits were calculated based on a two-part formula; (part 1 recognized service and earnings through June 1, 1994; part 2 recognized service and earnings subsequent to June 1, 1994). Beginning September 1, 1994, the updated benefit formula reflects all service and earnings at retirement or termination.

Effective March 23, 1995, the Green Bay union hourly division of FMC Corporation was decertified. Those formerly-union Green Bay participants who remained employed with FMC Corporation became salaried or nonunion hourly participants in the FMC Salaried Plan. Participants who transferred in will earn an all-service benefit in the Salaried Plan, offset by the frozen accrued benefit earned in (and still payable from) the Green Bay union hourly plan.

Effective September 20, 1995, the Fran Rica division was acquired. Active employees of this location were credited with service under the FMC Salaried Plan beginning on the date of acquisition.

During 1995 the FMC Salaried Plan was amended to require that participants terminating or retiring from the plan with a present value of benefits less than $3,500 will receive their benefits in the form of a single lump sum distribution. Present value determinations will be based on the 1983 Group Annuity Mortality Table (weighted 50% male, 50% female), and the 30-year Treasury rate in effect on the November 1 preceding the date of distribution.

Effective March 31, 1996, the Conway division of FMC Corporation was sold. Conway participants who were active as of the sale date will have their future FMC Salaried Plan benefits calculated with credited service as of March 31, 1996, and final average pay as of their final termination date with the buyer.

Effective July 31, 1996, the FMC Gold division was sold. Assets and liabilities for benefits accrued through the sale date, for participants active on July 31, 1996, were transferred to the buyer.

Effective August 19, 1996, the Louisville, Kentucky division was acquired. Active salaried and nonunion hourly employees at this location were credited with service under the FMC Salaried Plan beginning on the date of acquisition.

Effective January 1, 1997, employees of Moorco's Waugh and Invalco divisions became participants in the FMC Salaried Plan. These employees were credited with service under the FMC Salaried Plan beginning on the date that they were acquired by Moorco; (Waugh was acquired by Moorco on January 17, 1995; Invalco was acquired by Moorco on October 27, 1993).

Effective April 1, 1997, employees of Frigoscandia Inc. (FSI) and Design Systems Inc. (DSI) became participants in the FMC Salaried Plan. Employees at these locations were credited with service under the FMC Salaried Plan beginning on April 1, 1997.

Effective June 1, 1997, assets and liabilities from the Stein Inc. Pension Plan were merged into the FMC Salaried Plan. All Stein participants who terminate after April 1, 1997, will have their benefits calculated under the FMC Salaried Plan formula.

Effective July 1, 1997, assets and liabilities from the Moorco International Inc. Retirement Income Plan (MRIP) and the Smith Meter Inc. Salaried Retirement Plan were merged into the FMC Salaried Plan. All MRIP and Smith Meter Salaried participants who terminate after April 1, 1997, will have their benefits calculated under the FMC Salaried Plan formula.

Effective July 1, 1997, the following benefit changes were introduced for active participants at the Green River union hourly division:

- A cap on pensionable earnings of $100,000 per year was introduced.
- A monthly benefit of $5 times years of service was added to the existing benefit formula.
- A supplemental benefit of $200 per month, payable to age 65, was added for participants who retire at age 60 or later before July 1, 2000.

Effective September 1, 1997, the monthly pension benefit for union hourly participants of the Jetway Systems division was changed as follows:

- The basic benefit was increased from:
  1.0% of final average monthly earnings times service to
  1.025% of final average monthly earnings times service
- The minimum benefit was increased from $20.50 times service to:
  $21.00 times service effective September 1, 1997
  $21.50 times service effective September 1, 1998
  $22.50 times service effective September 1, 2000.

Effective October 6, 1997, the defense portion of FMC Corporation's business was sold. Assets and liabilities for all defense segment participants in the FMC Salaried Plan were spun off to the buyer.

In 1997, benefits for salaried and nonunion hourly participants were improved with the adoption of a new formula. The formula was adopted retroactively, to apply to all terminations on or after January 1, 1991. The new formula uses credited service projected to a participant's 65th birth date to determine a projected-service benefit. The projected-service benefit is then prorated by the ratio of credited service at termination to credited service projected to age 65 to develop the final accrued benefit.

Effective December 31, 1998, the following union hourly plans were merged into the FMC Salaried Plan: Baltimore, Buffalo, Carteret, Fresno, Green Bay, Hoopeston, Kemmerer, Lawrence, Middleport, Newark, CA, Newark, DE, Nitro, Pocatello, Pomona, San Jose, Skull Point, Smith Meter, and Spring Hill. The merged plan was restated and renamed the FMC Corporation Employees' Retirement Program.

Effective July 9, 1999, FMC's BioProducts division was sold. Pension benefits for BioProducts employees active as of the sale date were frozen, and the plan was amended to allow the distribution of these benefits in lump sum form.

Effective July 31, 1999, FMC's Process Additives division (Nitro) was sold. Assets and liabilities for those employees who were actively employed on the sale date were transferred to the buyer. (Note: asset transfer took place effective September 12, 2001.)

Effective October 2, 1999, the monthly pension multipliers for union hourly participants at the Newark, Delaware division were changed from $23.50/$24.50/$25.50 to:

$25.50/$26.50/$27.50 effective October 2, 1999
$27.50/$28.50/$29.50 effective October 2, 2000
$29.50/$30.50/$31.50 effective October 2, 2001.

Effective December 1, 1999, the monthly pension multiplier for union hourly participants at the Hoopeston, Illinois division was changed from $26.00 to $30.00.

Effective February 16, 2000, employees of the Northfield and Smithville divisions were acquired by FMC and became participants in the FMC Plan. Credited service for these employees begins at the February 16, 2000 acquisition date; vesting service is recognized from their original pre-acquisition hire dates.

Effective April 29, 2000, the monthly pension multiplier for union hourly participants at the Baltimore, Maryland division was changed from $26.50 to:

$28.50 effective April 29, 2000
$29.50 effective June 1, 2001
$30.50 effective June 1, 2002.

Effective April 30, 2000, FMC Corporation and Solutia formed a joint venture named Astaris. Employees of FMC's Phosphorus Chemical division were transferred to the joint venture. Pension benefits for these transferred employees were frozen as of the joint venture formation date. FMC employees who transferred to the Astaris joint venture, had attained age 45 at the closing date and remain continuously employed at Astaris until age 55 will be eligible for subsidized early retirement benefits from FMC Corporation.

Effective May 19, 2000, the monthly pension multipliers for union hourly participants at the Spring Hill division were changed from $32.50/$33.50/$34.50 to:

$35.50/$36.50/$37.50 effective May 19, 2000
$37.50/$38.50/$39.50 effective May 19, 2001
$38.50/$39.50/$40.50 effective May 19, 2002.

Effective July 1, 2000, the monthly pension benefit for union hourly participants at the Green River and Granger divisions was changed from the greater of (1) and (2), plus (3):

(1) 1.2% of final average earnings times credited service;

(2) $25.00 times credited service;

(3) $5.00 times credited service;

to

$70.00 times credited service, effective July 1, 2000
$73.00 times credited service, effective July 1, 2001
$74.00 times credited service, effective July 1, 2002
$76.00 times credited service, effective July 1, 2004.

In addition, the disability retirement benefit previously provided to the Green River/Granger union group was removed from the plan.

Effective July 15, 2000, the monthly pension multiplier for union hourly participants at the Buffalo, New York division was changed from $30.00 to:

$32.00 effective July 15, 2000
$34.00 effective July 15, 2001
$36.00 effective July 15, 2002
$38.00 effective July 15, 2003.

Effective September 1, 2000, the monthly pension benefit for union hourly participants at the Jetway Systems (Ogden, Utah) division was changed from 1.025% of final average earnings times credited service to $30.00 times credited service.

Effective January 31, 2001, the monthly pension multiplier for union hourly participants at the Middleport, New York division was changed from $28.00 to:

$29.00 effective January 31, 2001
$30.00 effective January 31, 2002
$31.00 effective January 31, 2003.

Effective April 2, 2001, the monthly pension multiplier for union hourly participants at the Smith Meter (Erie, PA) division was changed from $25.00 to:

$26.00 effective January 1, 2001
$27.00 effective January 1, 2002
$28.00 effective January 1, 2003
$29.00 effective January 1, 2004

In addition, any Smith Meter union participant who terminates between January 1, 2001 and January 1, 2004 will have their benefit recalculated as of January 1, 2004 using the formula $29.00 times years of service.

During 2001, FMC Corporation's machinery divisions were spun-off to form a new company—FMC Technologies, Inc. Assets and liabilities for all FMC Technologies, Inc. participants were spun off from the FMC Plan effective May 1, 2001 and transferred into the FMC Technologies Inc. Employees' Retirement Program.

Effective October 1, 2002, the monthly pension multipliers for union hourly participants at the Newark, Delaware division were changed from $29.50/$30.50/$31.50 to:

In addition, Green River union employees who retire at age 60 or later prior to July 1, 2015 will receive a monthly supplemental benefit of $600 (in addition to their dollars-times-service benefit) which is payable until age 65.

Effective May 15, 2011, the monthly pension multiplier for union hourly participants at the Buffalo (Tonawanda) division was changed from $52.00 to:

$54.25 effective May 15, 2011
$56.25 effective May 15, 2012
$58.25 effective May 15, 2013
$60.25 effective May 15, 2014

Effective October 1, 2011, the monthly pension multiplier for union hourly participants at the Newark, Delaware division was changed from $47.50/$48.50/$49.50 to:

$49.50/$50.50/$51.50 effective October 1, 2011
$51.50/$52.50/$53.50 effective October 1, 2012
$53.50/$54.50/$55.50 effective October 1, 2013
$55.50/$56.50/$57.50 effective October 1, 2014
$57.50/$58.50/$59.50 effective October 1, 2015

Effective February 1, 2013, the plan was closed to new union hourly employees hired or rehired at the Middleport division on or after February 1, 2013.

Effective March 31, 2013, pension accruals were frozen for union hourly participants at the Middleport division who would not have attained age 55 with 10 years of credited service by January 31, 2017 (described under the Plan as “Middleport Non-Grandfathered Employees”). The monthly Normal Retirement Benefit for these Middleport Non-Grandfathered Employees was determined as of March 31, 2013 by multiplying a benefit rate of $40.50 by their credited service as of March 31, 2013. The Middleport Non-Grandfathered Employees were fully vested in their accrued benefit as of this date and may continue to earn credit service under the Plan for purposes of Early Retirement eligibility while employed by FMC.

The monthly pension multiplier for union hourly participants at the Middleport division who would have attained age 55 with at least 10 years of credited service by January 31, 2017 (described under the Plan as “Middleport Grandfathered Employees”) was changed from $40.50 to:

$42.50 effective February 1, 2013
$44.50 effective February 1, 2014
$46.50 effective February 1, 2015
$48.50 effective February 1, 2016

In addition, the Normal Retirement Benefit of a Middleport Grandfathered Employee who retires from FMC on or after February 1, 2013 but before February 1, 2016, after attaining age 62 with at least 10 years of credited service, will be calculated with a monthly pension multiplier of $48.50.

Pension accruals will be frozen for Middleport Grandfathered Employees effective January 31, 2017. They may continue to earn credit service after this date for purposes of Early Retirement eligibility while employed by FMC.

Effective February 28, 2014, FMC's peroxygens business was sold and benefits for peroxygens employees were frozen. Salaried and nonunion hourly employees who were at least age 50 with 10 years of service on February 28, 2014 are able to grow into early retirement eligibility with continued service with the buyer. Tonawanda union employees who are age 62 or older on February 28, 2014 and retire with a benefit commencement date of March 1, 2014 will receive the monthly pension multiplier of $60.25 that was scheduled to take effect May 15, 2014. Other Tonawanda union employees will receive the monthly $58.25 pension multiplier that was in effect on the date of the sale.

Effective April 1, 2015, FMC's alkali business was sold and benefits for alkali employees were frozen. Salaried and nonunion hourly employees who were at least age 50 with 10 years of service on April 1, 2015 are able to grow into early retirement eligibility with continued service with the buyer. Green River union employees will receive the monthly $85.00 pension multiplier that was in effect on the date of the sale.

Effective July 1, 2015, the monthly pension multiplier for union hourly participants at the Green River division changed from $85.00 to $86.25. In addition, Green River union employees who retire at age 60 or later prior to July 1, 2016 will receive a monthly supplemental benefit of $600 (in addition to their dollars-times-service benefit) which is payable until age 65.

Effective October 1, 2016, the plan was closed to new union hourly participants hired or rehired at the Newark, Delaware division on or after October 1, 2016.

Effective October 1, 2016, the monthly pension multiplier for union hourly participants at the Newark, Delaware division was changed from $57.50/$58.50/$59.50 to:

$59.50/$60.50/$61.50 effective October 1, 2016
$61.50/$62.50/$63.50 effective October 1, 2017
$63.50/$64.50/$65.50 effective October 1, 2018

Effective November 1, 2017, FMC's health and nutrition business was sold and benefits for health and nutrition employees were frozen. Salaried and nonunion hourly employees who were at least age 50 with 10 years of service on October 31, 2017 were eligible for early retirement. Newark union employees received two additional years of credited service and the monthly pension multiplier of $63.50/$64.50/$65.50 that was scheduled to take effect October 1, 2018.

Effective December 31, 2018, benefits for Livent (FMC's lithium business) employees were frozen. Salaried and nonunion hourly employees became eligible for subsidized early retirement benefits and received three additional years of credited service.

Summary of Plan Provisions—Salaried and Nonunion Hourly

Effective Date	September 30, 1941. Most recently amended and restated effective January 1, 2015.
Participation	All salaried and nonunion hourly employees except employees hired or rehired on or after July 1, 2007.
Eligibility for Benefits	
Normal Retirement	Age 65.
Early Retirement	Age 55 and 10 years of credited service.
Deferred Retirement	After age 65.
Deferred Vested	Five years of vesting service.
Retirement Benefits	
Normal Retirement	A monthly amount equal to the sum of [(1) + (2)] times (3), plus (4) where: (1) 1% of final average earnings up to allowable Social Security covered compensation; Plus 1.5% of final average earnings over allowable Social Security covered compensation; Times Years of credited service projected to age 65 (up to 35 years). (2) 1.5% of final average earnings; Times Years of credited service projected to age 65 (in excess of 35). (3) Ratio of years of credited service as of termination to years of credited service projected to age 65. (4) $1.00 for each $120 of unwithdrawn employee contributions accumulated with interest.

Retirement Benefits

Early Retirement	The benefit is computed in the same manner as the normal retirement benefit except for the following: (5) The amount determined in [(1) + (2)] times (3) above will be reduced by ⅓ of 1% for each month in excess of 36 that retirement precedes age 65. (6) For each year that retirement precedes age 65, the amount of employee contributions and interest required to provide $1.00 of benefits under part (4) above is increased by $3.00.
Deferred Retirement	The normal retirement benefit calculated as of the actual retirement date with service and pay being credited to the date of actual retirement. For each year that retirement follows age 65, the amount of employee contributions and interest required to provide $1.00 of benefits under part (4) above is decreased by $3.00.
Deferred Vested	The accrued normal retirement benefit payable for life commencing at age 65. The benefit is payable as early as age 55, with reductions of 0.5% applied for each month between benefit commencement and age 65.

Preretirement Death Benefits

Survivor's Benefit	For employees eligible for early retirement, a benefit is payable to a beneficiary for life equal to 50% of what the participant would have received had the participant retired on the day of his death with the 50% joint and survivor option in effect. The employee's past contributions with interest serve as a minimum benefit upon death.
Spouse's Benefit	For employees who are vested but not yet eligible for early retirement, a benefit is payable to a surviving spouse equal to 50% of the amount the participant would have received if the participant terminated on the date of his death, survived until his earliest retirement date and retired with the 50% joint and survivor option in effect. The employee's past contributions with interest serve as a minimum benefit upon death.
Normal Form of Annuity	Life annuity. Benefits are paid to married participants on a reduced basis as a qualified joint and survivor annuity, unless elected otherwise.

Optional Forms of Annuity	50% joint and survivor annuity, 75% joint and survivor annuity, 100% joint and survivor annuity, and level income annuity options.
Employee Contributions	None are required or permitted since May 1, 1969. Interest is credited on accumulated amounts up to the date of retirement (or withdrawal, if earlier).
Benefit Offset	This plan will offset the November 30, 1985 benefits that are provided by Aetna nonparticipating annuities.
Minimum Benefit	There is a minimum benefit equal to the accrued benefit as of December 31, 1990, as determined under the plan existing on that date.
Benefit Accruals While on Long-Term Disability	Employees on long-term disability continue to earn credited service and vesting service under the FMC Retirement Program. In addition, pensionable earnings are imputed during a period of disability. (Effective May 1, 2010, service accruals and imputed earnings will cease after 30 months for those disabled on or after May 1, 2010.)

Definitions

Plan Year	January 1 to December 31.
Vesting Service	Elapsed time from date of hire to date of termination. A partial month of service is recognized as a full month.
Credited Service	Same as vesting service except no service is credited for certain leaves of absence.
Earnings	Regular compensation including overtime, administrative and discretionary bonuses, sales bonuses and sales commissions, and incentive compensation (earned during the plan year but paid after the end of the plan year). Earnings exclude hiring and stay bonuses, awards, deferred compensation, severance pay, accrued vacation and other special payments.
Final Average Earnings	The average of the highest consecutive 60 months of earnings out of the last 120 months of employment.
Covered Compensation	Covered compensation is the allowable 35-year average of the maximum earnings subject to Social Security tax. The 35-year period ends in the year the employee reaches Social Security retirement age. Each year as the Social Security wage base changes, the allowable covered compensation amount will also change.
Social Security Retirement Age	Based on year of birth as follows: Before 1938 Age 65 1938–1954 Age 66 After 1954 Age 67

Schedule SB, Part V — Summary of Plan Provisions

History of Plan

The FMC Corporation Salaried Employees' Retirement Plan was established as the Employees' Retirement Plan effective in 1941. The plan was amended effective October 25, 1974, and additional changes were made effective January 1, 1976. The plan was revised and restated to comply with ERISA effective January 1, 1976.

Effective July 1, 1978, the plan was changed from participation at age 25 to immediate participation from date of hire and to credit all service from date of hire rather than from age 25. The 30-year maximum on service credit was removed on the minimum benefit formula and on the final average pay portion of the offset benefit formula. The maximum offset for Social Security is still 50%, however.

Effective January 1, 1979, the salaried participants of the Retirement Plan for Non-Union Employees of Sun Cleanser Company and the Marine Colloids Salaried Employees' Retirement Plan were merged into this plan.

On November 1, 1979, a cost-of-living increase was granted to retired employees. Effective January 1, 1980, the plan was changed to base benefits at early retirement or vested termination on expected service at 65, with the maximum offset for Social Security still 50%, times the ratio of actual service to expected service. In addition, effective January 1, 1980, three new locations were covered by this plan.

On November 1, 1980, the Industrial Packaging group was sold and benefits for these employees were frozen.

On June 1, 1981, Engineered Systems was sold and all employees became immediately vested. On September 28, 1981, Power Transmission was sold and benefits for these employees were frozen. For both sales, both the assets and liabilities associated with the groups were retained in the Salaried Plan.

Effective April 1, 1981, the preretirement survivor's spouse benefit provisions were improved.

Effective December 31, 1981, the Hourly Plans of the Power Transmission division and the Fiber Hourly Plan of the American Viscose division were merged into the Salaried Plan. Prior to the merger date, part of the assets from the Power Transmission Plans and the American Viscose Plan were dedicated to immunized funds with the Metropolitan Life Insurance Company.

On April 1, 1982, the Outdoor Power Equipment Division in Port Washington was sold and benefits for these employees were frozen. The assets and liabilities for this group were retained in the Salaried Plan.

Effective January 1, 1984, the 5-year certain and life normal form of payment was removed. Unreduced benefits will only be paid on a life annuity basis.

Effective January 1, 1984, the following plans were merged into the Salaried Plan:

- FMC Retirement Plan for Hourly Employees - Industrial Chemical Division, Lyndhurst, New Jersey
- Nonunion Employees of the McAllen Location Who Formerly Participated in the FMC Corporation Retirement Plan for Shop Hourly Employees of Designated Production and Service Facilities
- FMC Corporation Retirement Plan for Shop Hourly Employees of Designated Production and Service Facilities

On August 31, 1984, the Mining Equipment Division was sold. Benefits for the salaried and nonunion hourly employees at this location were frozen as of December 31, 1984. Assets and liabilities for this group were retained in the plan.

Effective January 1, 1985, preretirement death benefits were extended to active employees who are eligible for vesting and to employees who have terminated with vested benefits.

On August 16, 1985, the South Charleston and Livonia divisions were sold. Benefits were frozen as of the sale date; however, employees earn vesting credit with the purchasing company. The assets and liabilities for these locations were retained in the plan.

Effective November 30, 1985, certain participants were spun-off into another plan. Annuities covering accrued benefits were purchased for all participants in the spun-off plan as well as for participants in the continuing plan. Both participating and nonparticipating annuities were purchased with the assets associated with the participating annuities remaining a part of the current trust. The spun-off plan was terminated with the surplus assets reverting to FMC Corporation.

The following locations were sold on the effective date specified. In general, benefit accruals ceased on the sale dates with employees being allowed to vest in their post 11/30/85 accrued benefits by earning additional vesting service with the purchasing companies. The assets and liabilities for these groups were retained in the plan.

Industrial Brush	12/31/1985
Turbo Pump	11/25/1986
FMC Finance	11/30/1986
Beverage Equipment	12/19/1986

Effective January 1, 1988, the plan was amended to allow service accrual beyond age 65.

Effective December 31, 1988, the Lexington location was sold and benefits for these employees were frozen. Employees are allowed to earn additional vesting service with the purchasing company. Assets and liabilities for this group were retained in the Salaried Plan.

Effective January 1, 1989, the plan was amended to reduce the vesting requirements from 10 years to five years of service.

Effective January 1, 1989, the following union hourly plans were merged into this plan: Closed Operations, Lakeland, Hollister, Wellhead-Houston, Tipton, Bayport, Cedar Rapids, IBO-Pomona, MCD-Rockland, Colmar, and MED-Fairmont.

On December 28, 1990, the Green River union hourly plan was merged into the Salaried Plan.

Effective January 1, 1991, the plan's benefits were improved with the adoption of a new formula. The prior plan was considered a Social Security "offset" plan, and this has been revised to recognize covered compensation under Social Security in the form of an "excess" plan. In addition, the definition of final average earnings was revised to base pay on the highest consecutive 60 months during the last ten years rather than the five highest consecutive calendar years.

Effective April 1, 1992, the Pomona Sweeper location was sold and benefits for these employees were frozen. Employees are allowed to earn additional vesting service with the purchasing company. Assets and liabilities for this group were retained in the Salaried plan.

Effective May 27, 1994, assets and liabilities from the Jetway Systems Division of Pneumo Abex Corporation were spun off from their existing pension plans and merged into the FMC Salaried Plan. Salaried and nonunion hourly employees of Jetway Systems will accrue benefits for all past and future service according to the FMC Salaried Plan formula. Union hourly Jetway Systems employees continue to accrue benefits according to their prior plan formula.

Effective September 1, 1994, the benefit formula for union hourly Jetway Systems employees was changed. Prior to the change, benefits were calculated based on a two-part formula; (part 1 recognized service and earnings through June 1, 1994; part 2 recognized service and earnings subsequent to June 1, 1994). Beginning September 1, 1994, the updated benefit formula reflects all service and earnings at retirement or termination.

Effective March 23, 1995, the Green Bay union hourly division of FMC Corporation was decertified. Those formerly-union Green Bay participants who remained employed with FMC Corporation became salaried or nonunion hourly participants in the FMC Salaried Plan. Participants who transferred in will earn an all-service benefit in the Salaried Plan, offset by the frozen accrued benefit earned in (and still payable from) the Green Bay union hourly plan.

Effective September 20, 1995, the Fran Rica division was acquired. Active employees of this location were credited with service under the FMC Salaried Plan beginning on the date of acquisition.

During 1995 the FMC Salaried Plan was amended to require that participants terminating or retiring from the plan with a present value of benefits less than $3,500 will receive their benefits in the form of a single lump sum distribution. Present value determinations will be based on the 1983 Group Annuity Mortality Table (weighted 50% male, 50% female), and the 30-year Treasury rate in effect on the November 1 preceding the date of distribution.

Effective March 31, 1996, the Conway division of FMC Corporation was sold. Conway participants who were active as of the sale date will have their future FMC Salaried Plan benefits calculated with credited service as of March 31, 1996, and final average pay as of their final termination date with the buyer.

Effective July 31, 1996, the FMC Gold division was sold. Assets and liabilities for benefits accrued through the sale date, for participants active on July 31, 1996, were transferred to the buyer.

Effective August 19, 1996, the Louisville, Kentucky division was acquired. Active salaried and nonunion hourly employees at this location were credited with service under the FMC Salaried Plan beginning on the date of acquisition.

Effective January 1, 1997, employees of Moorco's Waugh and Invalco divisions became participants in the FMC Salaried Plan. These employees were credited with service under the FMC Salaried Plan beginning on the date that they were acquired by Moorco; (Waugh was acquired by Moorco on January 17, 1995; Invalco was acquired by Moorco on October 27, 1993).

Effective April 1, 1997, employees of Frigoscandia Inc. (FSI) and Design Systems Inc. (DSI) became participants in the FMC Salaried Plan. Employees at these locations were credited with service under the FMC Salaried Plan beginning on April 1, 1997.

Effective June 1, 1997, assets and liabilities from the Stein Inc. Pension Plan were merged into the FMC Salaried Plan. All Stein participants who terminate after April 1, 1997, will have their benefits calculated under the FMC Salaried Plan formula.

Effective July 1, 1997, assets and liabilities from the Moorco International Inc. Retirement Income Plan (MRIP) and the Smith Meter Inc. Salaried Retirement Plan were merged into the FMC Salaried Plan. All MRIP and Smith Meter Salaried participants who terminate after April 1, 1997, will have their benefits calculated under the FMC Salaried Plan formula.

Effective July 1, 1997, the following benefit changes were introduced for active participants at the Green River union hourly division:

- A cap on pensionable earnings of $100,000 per year was introduced.
- A monthly benefit of $5 times years of service was added to the existing benefit formula.
- A supplemental benefit of $200 per month, payable to age 65, was added for participants who retire at age 60 or later before July 1, 2000.

Effective September 1, 1997, the monthly pension benefit for union hourly participants of the Jetway Systems division was changed as follows:

- The basic benefit was increased from:
  1.0% of final average monthly earnings times service to
  1.025% of final average monthly earnings times service
- The minimum benefit was increased from $20.50 times service to:
  $21.00 times service effective September 1, 1997
  $21.50 times service effective September 1, 1998
  $22.50 times service effective September 1, 2000.

Effective October 6, 1997, the defense portion of FMC Corporation's business was sold. Assets and liabilities for all defense segment participants in the FMC Salaried Plan were spun off to the buyer.

In 1997, benefits for salaried and nonunion hourly participants were improved with the adoption of a new formula. The formula was adopted retroactively, to apply to all terminations on or after January 1, 1991. The new formula uses credited service projected to a participant's 65th birth date to determine a projected-service benefit. The projected-service benefit is then prorated by the ratio of credited service at termination to credited service projected to age 65 to develop the final accrued benefit.

Effective December 31, 1998, the following union hourly plans were merged into the FMC Salaried Plan: Baltimore, Buffalo, Carteret, Fresno, Green Bay, Hoopeston, Kemmerer, Lawrence, Middleport, Newark, CA, Newark, DE, Nitro, Pocatello, Pomona, San Jose, Skull Point, Smith Meter, and Spring Hill. The merged plan was restated and renamed the FMC Corporation Employees' Retirement Program.

Effective July 9, 1999, FMC's BioProducts division was sold. Pension benefits for BioProducts employees active as of the sale date were frozen, and the plan was amended to allow the distribution of these benefits in lump sum form.

Effective July 31, 1999, FMC's Process Additives division (Nitro) was sold. Assets and liabilities for those employees who were actively employed on the sale date were transferred to the buyer. (Note: asset transfer took place effective September 12, 2001.)

Effective October 2, 1999, the monthly pension multipliers for union hourly participants at the Newark, Delaware division were changed from $23.50/$24.50/$25.50 to:

$25.50/$26.50/$27.50 effective October 2, 1999
$27.50/$28.50/$29.50 effective October 2, 2000
$29.50/$30.50/$31.50 effective October 2, 2001.

Effective December 1, 1999, the monthly pension multiplier for union hourly participants at the Hoopeston, Illinois division was changed from $26.00 to $30.00.

Effective February 16, 2000, employees of the Northfield and Smithville divisions were acquired by FMC and became participants in the FMC Plan. Credited service for these employees begins at the February 16, 2000 acquisition date; vesting service is recognized from their original pre-acquisition hire dates.

Effective April 29, 2000, the monthly pension multiplier for union hourly participants at the Baltimore, Maryland division was changed from $26.50 to:

$28.50 effective April 29, 2000
$29.50 effective June 1, 2001
$30.50 effective June 1, 2002.

Effective April 30, 2000, FMC Corporation and Solutia formed a joint venture named Astaris. Employees of FMC's Phosphorus Chemical division were transferred to the joint venture. Pension benefits for these transferred employees were frozen as of the joint venture formation date. FMC employees who transferred to the Astaris joint venture, had attained age 45 at the closing date and remain continuously employed at Astaris until age 55 will be eligible for subsidized early retirement benefits from FMC Corporation.

Summary of Plan Provisions—Salaried and Nonunion Hourly

Effective Date	September 30, 1941. Most recently amended and restated effective January 1, 2015.
Participation	All salaried and nonunion hourly employees except employees hired or rehired on or after July 1, 2007.
Eligibility for Benefits	
Normal Retirement	Age 65.
Early Retirement	Age 55 and 10 years of credited service.
Deferred Retirement	After age 65.
Deferred Vested	Five years of vesting service.
Retirement Benefits	
Normal Retirement	A monthly amount equal to the sum of [(1) + (2)] times (3), plus (4) where: (1) 1% of final average earnings up to allowable Social Security covered compensation; Plus 1.5% of final average earnings over allowable Social Security covered compensation; Times Years of credited service projected to age 65 (up to 35 years). (2) 1.5% of final average earnings; Times Years of credited service projected to age 65 (in excess of 35). (3) Ratio of years of credited service as of termination to years of credited service projected to age 65. (4) $1.00 for each $120 of unwithdrawn employee contributions accumulated with interest.

Retirement Benefits

Early Retirement	The benefit is computed in the same manner as the normal retirement benefit except for the following: (5) The amount determined in [(1) + (2)] times (3) above will be reduced by ⅓ of 1% for each month in excess of 36 that retirement precedes age 65. (6) For each year that retirement precedes age 65, the amount of employee contributions and interest required to provide $1.00 of benefits under part (4) above is increased by $3.00.
Deferred Retirement	The normal retirement benefit calculated as of the actual retirement date with service and pay being credited to the date of actual retirement. For each year that retirement follows age 65, the amount of employee contributions and interest required to provide $1.00 of benefits under part (4) above is decreased by $3.00.
Deferred Vested	The accrued normal retirement benefit payable for life commencing at age 65. The benefit is payable as early as age 55, with reductions of 0.5% applied for each month between benefit commencement and age 65.

Preretirement Death Benefits

Survivor's Benefit	For employees eligible for early retirement, a benefit is payable to a beneficiary for life equal to 50% of what the participant would have received had the participant retired on the day of his death with the 50% joint and survivor option in effect. The employee's past contributions with interest serve as a minimum benefit upon death.
Spouse's Benefit	For employees who are vested but not yet eligible for early retirement, a benefit is payable to a surviving spouse equal to 50% of the amount the participant would have received if the participant terminated on the date of his death, survived until his earliest retirement date and retired with the 50% joint and survivor option in effect. The employee's past contributions with interest serve as a minimum benefit upon death.
Normal Form of Annuity	Life annuity. Benefits are paid to married participants on a reduced basis as a qualified joint and survivor annuity, unless elected otherwise.

Optional Forms of Annuity	50% joint and survivor annuity, 75% joint and survivor annuity, 100% joint and survivor annuity, and level income annuity options.
Employee Contributions	None are required or permitted since May 1, 1969. Interest is credited on accumulated amounts up to the date of retirement (or withdrawal, if earlier).
Benefit Offset	This plan will offset the November 30, 1985 benefits that are provided by Aetna nonparticipating annuities.
Minimum Benefit	There is a minimum benefit equal to the accrued benefit as of December 31, 1990, as determined under the plan existing on that date.
Benefit Accruals While on Long-Term Disability	Employees on long-term disability continue to earn credited service and vesting service under the FMC Retirement Program. In addition, pensionable earnings are imputed during a period of disability. (Effective May 1, 2010, service accruals and imputed earnings will cease after 30 months for those disabled on or after May 1, 2010.)

Definitions

Plan Year	January 1 to December 31.
Vesting Service	Elapsed time from date of hire to date of termination. A partial month of service is recognized as a full month.

Normal Retirement	Age 65.
Early Retirement	Age 55 and 10 years of credited service.
Deferred Vested	Five years of vesting service.
Preretirement Death	Five years of vesting service.
Disability	Age 40 and 10 years of credited service.
Retirement Benefits	
Normal Retirement	Monthly pension is $38.50 times the first 10 years of service, $39.50 times the next 10 years of service, and $40.50 times years of service in excess of 20.
Early Retirement	The benefit for employees with less than 30 years of service at retirement will be reduced by 3% for each year that retirement precedes age 62. The benefit for employees with at least 30 years of service at retirement will be reduced by: (a) If benefits commence on or after age 60, 2% for each year that retirement precedes age 62. (b) If benefits commence prior to age 60, 3% for each year that commencement precedes age 62.
Deferred Vested	The monthly accrued benefit, reduced actuarially if payments commence after age 55 but before age 65.
Disability	The monthly accrued benefit payable immediately after the completion of any waiting period after the date of disability.
Preretirement Death Benefit	If eligible for early retirement, the benefit payable to the spouse for life is equal to 50% of what the participant would have received had the participant retired on the day of his death with the 50% joint and survivor option in effect. If vested, but not yet eligible for early retirement, the benefit is equal to 50% of the amount the participant would have received if the participant terminated on the date of his death, survived until his earliest retirement date and retired with the 50% joint and survivor option in effect.

Normal Form of Annuity	Unmarried participants receive a single life annuity; married participants receive a reduced 100% joint and survivor annuity; if the spouse should die first, the benefit reverts to the original unreduced amount (“pop-up” annuity).
Optional Forms of Annuity	50% joint and survivor annuity and 100% joint and survivor “pop-up” annuity.

Plan Changes Since the Prior Year

The funding valuation does not include any plan changes since the prior year.

Schedule SB, line 24 — Change in Actuarial Assumptions

The funding valuation reflects the following assumption change:

- A change in the unlimited expected rate of return on assets from 4.75 percent to 4.50 percent.

This change was made to better reflect the anticipated plan experience and does not reduce the funding shortfall; as such, approval of the Commissioner is not required.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITOR'S REPORT

To the Participants and Plan Administrator of the
FMC Technologies, Inc. Employees' Retirement Program

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of FMC Technologies, Inc. Employees' Retirement Program (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements (collectively, the financial statements).

Plan management (Management), having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion on the Financial Statements

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (US GAAP).
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that Management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are

required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with US GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect Management's responsibility for the financial statements.

In preparing the financial statements, Management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the ability of the Plan to continue as a going concern for one year after the date that the financial statements were available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the transactions of the Plan that are presented and disclosed in the financial statements are in conformity with the provisions of the Plan, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal controls of the Plan. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by Management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the ability of the Plan to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of US GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with US GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental information in the accompanying Schedule of Assets (Held at End of Year) as of December 31, 2024, Schedule of Assets (Acquired and Disposed of Within Year), and Schedule of Reportable Transactions for the year ended December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of Management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information,

McConnell Jones

is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedules related to assets held by and certified to by the qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that Management determined meets the requirements of ERISA Section 103(a)(3)(C).

FMC TECHNOLOGIES, INC. EMPLOYEES' RETIREMENT PROGRAM NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2024 AND 2023

NOTE 1. DESCRIPTION OF THE PLAN

The following description of the FMC Technologies, Inc. Employees' Retirement Program (the "Plan") provides general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan covering certain employees of FMC Technologies, Inc. (the "Company" or "Plan administrator"), its retirees and terminated vested employees. The Plan is subject to the provisions of The Employee Retirement Security Act of 1974, as amended ("ERISA"). The Plan's assets are held in a trust with The Northern Trust Company (the "Trustee"). All of the assets of the Plan are available to pay benefits to participants of the Plan.

The Employee Benefits Committee and Plan Investment Committee are subcommittees of the Compensation Committee of the Board of Directors of the Company. The Employee Benefits Committee has overall responsibility for the operation and administration of the Plan while the investment decisions related to the Plan are made by the Plan Investment Committee.

Effective December 31, 2018, the FMC Technologies, Inc. Employees' Retirement Program Part II Union Employees' Retirement Plan was amended to freeze future participation and benefit accruals for all union participants of the Plan.

On February 16, 2021, the Company completed its separation into two independent publicly traded companies: TechnipFMC, a fully integrated technology and service provider, and Technip Energies, a leading engineering and technology player ("Technip Energies"). The transaction was structured as a spin-off and did not have an impact on the Plan's financial statements. Technip Energies N.V. is now an independent public company and its shares trade under the ticker symbol "TE" on the Euronext Paris Stock Exchange.

Eligibility, Vesting and Benefits

The following provisions of the Plan apply to the eligible salaried and nonunion hourly employees of the Company:

The normal retirement age is sixty-five (65) years. A participant who terminates employment prior to completing five years of vesting service is not eligible to receive a pension under the Plan. However, an active participant becomes vested at age 65 regardless of the years of service.

The normal annual benefit amount is equal to the sum of [(1) + (2)] times (3) where:

(1) 1% of final average* annual earnings up to allowable Social Security Covered Compensation Plus 1.5% of final average* annual earnings in excess of allowable Social Security Covered Compensation Times Years of credited service projected to age 65 (maximum of 35 years)
(2) 1.5% of final average* annual earnings times years of credited service projected to age 65 in excess of 35 years, and
(3) Ratio of years of credited service as of termination to years of credited service projected to age 65.

*average is the highest consecutive 60 months of the last 120 months of eligible earnings

A participant's retirement benefit is increased by $1.00 for each $120 of unwithdrawn employee contributions accumulated with interest.

Plan participants hired before January 1, 1984 are eligible for early retirement on or after age 55. Plan participants hired after December 31, 1983 are eligible for early retirement following attainment of age 55 and 10 years of credited service. For early retirement, the benefit is the monthly accrued benefit, reduced by early retirement reduction factors outlined in the Plan.

The Plan provides for surviving spouse benefits in the case of the death of an active participant. In addition, the Plan offers retirees the option to elect joint and survivor annuity payment options to provide benefits to a surviving spouse or beneficiary of a retired participant.

The following provisions of the Plan apply to bargained employees of FMC Technologies Measurement Solutions, Inc. (formerly Smith Meter, Inc.):

The normal retirement age is the earlier of age 62 with 10 years of vesting service or age 65. A participant who terminates employment prior to completing vesting service of 5 years is not eligible to receive a pension under the Plan. The normal monthly benefit amount is $42 times the years of service. Participants are entitled to early retirement following attainment of age 57 and 10 years of credited service. For early retirement, the benefit is the monthly accrued benefit, reduced by early retirement reduction factors outlined in the Plan. Certain union participants are eligible for disability retirement benefits upon becoming permanently and totally disabled after completing 10 years of credited service. The Plan provides for surviving spouse benefits in the case of the death of an active participant. In addition, the Plan offers retirees the option to elect joint and survivor annuity payment options to provide benefits to a surviving spouse or beneficiary of a retired participant.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America (“GAAP”).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investments, Valuation and Income Recognition

Investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. The Plan presents in the statement of changes in net assets available for benefits the net appreciation in the fair value of its investments which consists of the related gains and losses on investments bought and sold during the year, and the unrealized gains and losses on investments held during the year. Dividends are recorded on the record date. Interest income is recorded on the accrual basis.

Administrative Expenses

All permitted administrative expenses are paid from the Plan unless the Company, at its discretion, pays such expenses. Expenses that are paid directly by the Company are not billed to the Plan. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation in fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Payment of Benefits

Benefit payments to participants and beneficiaries are recorded when paid.

Contributions

Contributions to the Plan are recorded in the period to which the Plan's actuary determines they relate except that a contribution receivable is recorded to the extent that amounts due are pursuant to formal commitments as well as legal or contractual requirements in existence at the end of the Plan Year.

Subsequent Events

The Company made a voluntary contribution of $50,000,000 during September 2025, for the plan year ended December 31, 2025.

Plan management evaluated subsequent events that have occurred after December 31, 2024, and through October 13, 2025, which is the date the financial statements were available to be issued.

NOTE 3. FUNDING POLICY

The Company contributes to the Plan such sums as are actuarially determined to be necessary to provide defined pension benefits to participants, maintain certain acceptable funding levels, and ensure that all contributions are deductible for federal income tax purposes.

The Company's contributions are designed to satisfy the minimum funding requirements under ERISA and the Pension Protection Act of 2006, as amended. In addition, the Company may decide to make contributions above the minimum funding requirements. The determination of required contributions to be made by the Company during 2024 and 2023 was based upon actuarial valuations as of January 1 of each year.

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. See Note 4 to these financial statements for additional disclosure related to plan termination.

The Company's funding policy is to contribute an amount annually at least equal to the minimum funding requirement and no more than the maximum tax-deductible contribution in accordance with ERISA and the Code. Such amount is determined annually by an independent consulting actuary and is certified in an Actuarial Valuation Report. The Company made total contributions of $10,500,000 during 2024, for the plan year ended December 31, 2024. The Company made total contributions of $10,800,000 during 2024 for the plan year ended December 31, 2023.

When assessing the ERISA section 4010 reporting requirements, certain financial and actuarial information must be provided to the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) if the PBGC Funding Target Attainment Percentage (PBGC FTAP) is less than 80% for any plan in the Company's controlled group. However, this reporting requirement may be waived for controlled groups with no more than $15,000,000 in aggregate funding shortfall (PBGC 4010 FS), or fewer than 500 participants in all defined benefit plans.

Based on the contributions made to the Plan in accordance with the Company's funding policy, the 2024 PBGC FTAP was 80.40%, which is above the 80% threshold, and a 4010 filing was not required for the 2024 information year.

The Company contributed additional funding of $10,800,000 to bring the 2023 PBGC FTAP from 67.56% to 85.48%, which is above the 80% threshold, as of January 1, 2023, a 4010 filing was required for 2023.

NOTE 4. PLAN TERMINATION

Although the Company has not expressed any intention to do so, in the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

a. Benefits attributable to employee contributions, taking into account those paid out before termination.
b. Benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
c. Other vested benefits insured by the PBGC up to the applicable limitations.

d. All other vested benefits (that is, vested benefits not insured by the PBGC).
e. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE 5. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the services employees have rendered.

Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of January 1, 2024, were as follows:

a. Interest rate used to compute the present value of accrued benefits was 7.00 percent.
b. The assumed weighted average retirement age was sixty-four (64) years.
c. Eighty percent (80 percent) of all male participants and sixty percent (60 percent) of all female participants were assumed to be married in 2024.
d. Life expectancy rate: Pri-2012 based table projected with Scale MP-2021 were used.
e. The actuarial method used to determine the accumulated plan benefits is the Unit Credit method.

The foregoing actuarial assumptions are based on the presumption of the continuation of the Plan. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The total actuarial present value of accumulated plan benefits as of January 1, 2024 (the most recent valuation date), consisted of the following:

	January 1, 2024
Vested benefits:	
Participants currently receiving payments	$ 282,006,956
Other participants	119,092,651
	401,099,607
Nonvested benefits	1,812,248
Total actuarial present value of accumulated plan benefits	$ 402,911,855

Changes in the total actuarial present value of accumulated plan benefits for the period January 1, 2023 to January 1, 2024, was as follows:

Actuarial present value of accumulated plan benefits, beginning of period	$	403,509,054
Increase (decrease) during the period attributable to:		
Actuarial losses		1,708,698
Increase for interest due to decrease in the discount period		27,229,383
Benefits paid		(29,535,280)
Net decrease		(597,199)
Actuarial present value of accumulated plan benefits, end of period	$	402,911,855

NOTE 6. INCOME TAXES

The Plan obtained its latest determination letter on July 8, 2014, in which the Internal Revenue Service ("IRS") stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code of 1986, as amended ("Code"). Additional amendments to the Plan have been made and are not covered by the determination letter; however, the Plan management and legal counsel believe that the Plan, as amended, is designed and is currently administered in compliance with the applicable requirements of the Code.

GAAP requires the Plan management to evaluate uncertain tax positions taken by the Plan and to recognize a tax liability (or asset) when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan management has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2024, there were no uncertain positions taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan has not recognized interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions. There are currently no audits for any tax periods in progress related to the Plan.

NOTE 7. INVESTMENTS AND RELATED INVESTMENT INCOME OR LOSS (CERTIFIED BY THE TRUSTEE)

As permitted by 29 CFR 2520.103-8 of the Department of Labor rules under ERISA, certain information in the accompanying financial statements and ERISA-required supplemental schedules, related to investments held as at December 31, 2024 and 2023, and net appreciation in fair value of investments, and interest and dividends for the year ended December 31, 2024 and 2023, was obtained by management and agreed to or derived from information certified as complete and accurate by Northern Trust Company, a qualified institution and the trustee of the Plan.

NOTE 8. FAIR VALUE OF ASSETS

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, "Fair Value Measurement", (FASB ASC 820) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- *Level 1*: Unadjusted quoted prices in active markets for identical assets and liabilities.
- *Level 2*: Observable inputs other than those included in Level 1. For example, quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets.
- *Level 3*: Unobservable inputs reflecting management's own assumptions about the inputs used in pricing the asset or liability.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The valuation techniques applied maximized the use of observable inputs and minimized the use of non-observable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

- *Common Stock:* Valued at the closing price reported on the active market on which the securities are traded.
- *Cash and cash equivalents*: These are valued at cost, which approximates fair value.
- *Common/Collective Trusts:* The Plan uses the practical expedient election for the fair value of these investments as the investments are valued at the net asset value of shares held by the Plan at year end. The investments in common collective trust funds represent exchange-traded securities with readily observable prices. Common/collective trusts consisted of investments in money market instruments, U.S. Treasury bonds, equity funds, credit funds, and real assets funds with short maturities.
  - † Diversified Equity Fund has a monthly redemption frequency with a 1-day notice period. The Fund's investment objective is to generate returns above the return on developed markets on a medium to long term basis. The assets of the Fund will be invested and reinvested primarily in common stocks and other equity-type securities issued by U.S. and non-U.S. domiciled companies, including securities of other investment vehicles, convertible securities, preferred stock, real estate investment trusts ("REITs"), rights and warrants. The Fund is expected to maintain a cash reserve, which may be invested in short-term, high-quality debt investment products.
  - † Diversified Credit Fund has a monthly redemption frequency with a 1-day notice period. The Fund's investment objective is to seek an attractive risk-adjusted total return on a medium and long-term basis by primarily investing in a portfolio of alternative credit-oriented investment funds and/or managed accounts. The Fund is expected to maintain a cash reserve, which may be invested in short-term, high quality debt investment products.
  - † Real assets Fund has a monthly redemption frequency with a 1-day notice period. The Fund's investment objective is to achieve long-term total returns adjusted for the effects of inflation ("Real Returns") through current income and long-term capital appreciation with low correlation to the broader public equity and debt markets.
- *Registered Investment Companies*: Fair values of registered investment companies are valued based on quoted market prices, which represent the net asset value ("NAV") of shares held in such funds at year end. Registered investment companies include investments in emerging market bonds at December 31, 2024.
- *Limited Partnerships*: The Plan uses the practical expedient election for the fair value of these investments as the investments are valued at the net asset value of shares held by the Plan at year end. The investments in limited partnerships represent exchange-traded securities with readily observable prices. There are six limited partnerships.
  - † VB Select Pan-Asia Fund I, LP has a quarterly redemption frequency with a 60-day notice period. This partnership seeks to achieve its investment objective by purchasing, holding, selling, and trading, currencies and financial instruments including U.S. or non-U.S. securities. The investment strategy of this fund is to achieve long-term capital appreciation on an absolute return basis while limiting down-side risk and volatility.
  - † VB Select European Opportunities Fund LP has a quarterly redemption frequency with a 60-day notice period. This partnership seeks to achieve its investment objective by purchasing, holding, selling, and trading, currencies and financial instruments including U.S. or non-U.S. securities. The investment strategy of this fund is to achieve long-term capital appreciation on an absolute return basis while limiting down-side risk and volatility.
  - † MIRI Emerging Markets Fund has a quarterly redemption frequency with a 90-day notice period. The Fund seeks to achieve long-term capital appreciation by investing primarily in listed equity securities of companies generally located in developed, emerging, and frontier markets.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Assets measured at fair value are as follows:

	December 31, 2024			
	Total	Level 1	Level 2	Level 3

(1) Certain investments that are measured at fair value using net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

NOTE 9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit, and overall market risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 10. PARTY-IN-INTEREST TRANSACTIONS

All transactions with the Company, Trustee, the Plan’s benefit administrator, service providers or participants are considered party-in-interest transactions. Certain Plan assets are invested in funds managed by the Trustee; therefore, these transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

Expenses for accounting, administrative, and investment services are charged to the Plan and totaled $3.4 million and $4.0 million in 2024 and 2023, respectively.

Statement of Actuarial Assumptions/Methods

Economic Assumptions

Interest rate basis

• Applicable month	**September**
• Interest rate basis	Segment Rates from 3 Month Preceding Valuation Date

Interest rates	**Reflecting Stabilization**	**Not Reflecting Stabilization**
• First segment rate	4.75%	3.62%
• Second segment rate	4.87%	4.46%
• Third segment rate	5.59%	4.52%
• Effective interest rate	5.18%	4.44%

Annual rates of increase

• Compensation:	N/A
• Future Social Security wage bases	N/A
• Statutory limits on compensation	N/A

Plan-related expenses — Expected administrative expenses (assumed to equal prior year administrative expenses, adjusted for current year PBGC Premiums) are included in normal cost.

As permitted by law, rates reflecting stabilization are used to determine the funding target, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and generally currently are higher than) current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

SCHEDULE SB ATTACHMENTS

Demographic Assumptions

Inclusion date

The valuation date coincident with or next following the date on which the employee becomes a participant.

New or rehired employees

It was assumed there will be no new or rehired employees.

Mortality

- Healthy

Separate rates for non-annuitants and annuitants based on Pri-2012 “Employees” and “Healthy Annuitants” (participants and beneficiaries combined) tables, respectively, without collar or amount adjustments and then projected forward with a generational projection as specified in the regulations under §1.430(h)(3)-1 using the IRS adjusted Scale MP-2021 (i.e., MP-2021 with no mortality improvement for 2020-2023 and future mortality improvement capped at 0.78% for years after 2024).

- Disabled

Same as described above for Healthy Mortality

Termination

Rates varying by age and service.

Benefit commencement date:

- Preretirement death benefit — The later of the death of the active participant or the date the participant would have attained earliest commencement age.
- Deferred vested benefit — 25% of current and future deferred vested participants are assumed to commence at age 62 and 75% of current and future deferred vested participants are assumed to commence at age 65.
- Disability benefit — Upon disablement
- Retirement benefit — Upon termination of employment

Form of payment

Form of Payment	Single Life	50% Joint & Survivor
Active retirements	50%	50%
Future vested deferreds	50%	50%
Future disabilities	50%	50%
Future deaths	0%	100%
Current vested deferreds	50%	50%

Percent married — 80% of males; 60% of females. Used to value pre-retirement surviving spouse benefits and in determining the optional forms expected to be elected at commencement

Spouse age — Wife three years younger than husband

Covered pay — Not applicable.

Timing of benefit payments — Annuity payments are payable monthly at the beginning of the month.

Methods

Valuation date — First day of plan year

Funding target — Present value of accrued benefits as required by regulations under IRC §430.

Target normal cost — Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

SCHEDULE SB ATTACHMENTS

Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.
Actuarial value of assets for determining minimum required contributions	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable discounted using the effective interest rate for the prior plan year. The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued based on discussions with the plan sponsor regarding the likelihood that these benefits will be paid. WTW has reviewed the plan provisions with the plan sponsor and, based on that review, is not aware of any significant benefits required to be valued that were not.

SCHEDULE SB ATTACHMENTS

Sources of Data and Other Information

The plan sponsor through its third party administrator, furnished participant data as of January 1, 2024. Information on assets was supplied by Northern Trust. Information on contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made where data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Assumption was set based on historical demographic experience with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Disability	Assumption was set based on historical demographic experience with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

SCHEDULE SB ATTACHMENTS

Retirement	Assumption was set based on historical demographic experience with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Benefit commencement date for deferred benefits:	Deferred vested participants are assumed to begin benefits based on rates applied to a number of commencement ages based on an analysis of actual commencement patterns.
Form of payment	The percentage of retiring participants assumed to take joint and survivor annuities, and the assumed survivor percentages, are based on historical experience with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Percent married	The assumed percentage married is based on the percentage married in the active population.
Spouse age	The assumed age difference for spouses is based on general population statistics of the age difference for married individuals of retirement age.

SCHEDULE SB ATTACHMENTS

Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation	The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430. The mortality table used to calculate the funding target and target normal cost was changed from using a static projection of mortality improvement to generational projection as required by guidance issued by IRS under IRC §430. The assumed plan-related expenses added to the target normal cost were changed from $3,406,000 to $4,032,000.
Change in methods since prior valuation	None.

Schedule SB, Part V
Summary of Plan Provisions

Plan Provisions

The most recent amendment reflected in the following plan provisions was effective December 31, 2018. The plan was further amended on December 18, 2020 to reflect the Retiree Annuity Purchases occurring on December 28, 2020 and January 4, 2021.

Covered employees	All salaried employees, non-union hourly employees paid on a salaried basis, or union hourly employees covered by a Collective Bargaining Agreement that specifically provides for plan participation and were vested as of January 1, 2010. Any employee hired after 2009 is excluded from coverage. Benefit accruals for salaried participants (non Snap-On) were frozen as of December 31, 2017. Benefit accruals for all union participants were frozen as of December 31, 2018. Benefit accruals for Snap-On participants were intended to be frozen as of the December 31, 2017 amendment freezing accruals for salaried participants. However, 204(h) notices were not provided to Snap-On participants and their accruals continued through September 30, 2020 at which point 204(h) notices were provided and their benefits were frozen.
Participation date	Covered employees enter the plan upon attainment of 1,000 hours of service within one year of their hire date.

Definitions

Vesting service	Elapsed time from date of hire to the nearest month.
Pension service	Elapsed time from date of plan participation to December 31, 2017 for non-union participants. Elapsed time from date of plan participation to December 31, 2018 for union participants. Note, service subsequent to these dates is reflected for determining early retirement eligibility.
Pensionable pay	The amount paid in cash to a Participant for a Plan Year, excluding severance pay, certain incentive payments, taxable fringe benefits and other items specifically excluded.

SCHEDULE SB ATTACHMENTS

Average earnings	The average of the highest five consecutive calendar years of pensionable pay during the ten-year period ending on December 31, 2017. For Snap-On participants, the five consecutive calendar years end on September 30, 2020.
Normal retirement date (NRD)	Age 65
Monthly pension benefit	
Salaried / Non-Union	One-twelfth of the sum of (a) and (b) multiplied by (c) but not less than the frozen FMC plan benefit as of December 31, 1990: a) 1% of final average earnings up to covered compensation plus 1.5% of final average earnings in excess of covered compensation, times pension service projected to age 65 up to a maximum of 35 years. b) 1.5% of final average earnings times pension service projected to age 65 in excess of 35 years. c) The ratio of actual pension service to expected years of pension service at age 65.
Union hourly – Smith Meter	One-twelfth of the greater of (a) or (b): a) Frozen benefit determined under the prior pay-related formula, if applicable. b) A dollar multiplier times pension service: Smith Meter – $42 per month per year of pension service (starting January 1, 2018).
Monthly preretirement death benefit	50% of the monthly pension benefit as of the date of death, reduced for the 50% joint and survivor election and reduced for payment as early as the participant's 55th birthday

Eligibility for Benefits

Normal retirement	Retirement on NRD
Early Retirement	
Salaried / Non-Union	Retirement before NRD and on or after both attaining age 55 and completing ten years of pension service. For those hired before January 1, 1984, Retirement before NRD and on or after attaining age 55.

SCHEDULE SB ATTACHMENTS

Other Plan Provisions

Forms of payment	Preretirement death benefits are payable only as described above.
• Salaried / Non-Union	Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of a 50% joint and survivor annuity option.
• Union hourly – All	Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of a 100% joint and survivor annuity option.
• Union hourly – Smith Meter	Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of a 50% joint and survivor annuity option.
Pension Increases	None
Plan participants' contributions	None
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are not assumed for determining contributions.
