Notice of Website Accessibility Barriers and Demand for Remediation — daltoninvestments.com

To Whom It May Concern,

This letter concerns barriers to accessibility on the website **daltoninvestments.com**, which Dalton Investments LLC operates in connection with an investment-advisory office. On the date noted above the website was evaluated for conformance with the Web Content Accessibility Guidelines and found to be non-conformant with **WCAG 2.1 Level AA, WCAG 2.2 Level AA, and Section 508**.

The evaluation followed the W3C Website Accessibility Conformance Evaluation Methodology using three independent testing engines, and identified **27** standards-mapped accessibility failures across **3** WCAG Success Criteria — including Info and Relationships (WCAG 1.3.1); Name, Role, Value (WCAG 4.1.2); Contrast (Minimum) (WCAG 1.4.3). These barriers impede people who rely on screen readers, keyboard navigation, or magnification. Each failure is itemized, with a preserved screenshot of the failing element, in **Exhibit A** enclosed with this letter. All evidence was cryptographically sealed at the time of capture and is independently verifiable.

Title III of the Americans with Disabilities Act, 42 U.S.C. §§ 12181–12189, requires the full and equal enjoyment of the goods and services of a place of public accommodation, and courts apply WCAG as the measure of an accessible website. This matter is also governed by the Unruh Civil Rights Act, Cal. Civ. Code §§ 51–52.

Accordingly, within **45 days** of this letter, please (a) remediate the website so that it conforms to WCAG 2.1 Level AA; (b) confirm the remediation in writing; and (c) preserve all electronically stored information relating to the website, including source code and version history, as this matter may result in litigation.

Nothing herein waives any right or remedy, all of which are expressly reserved. Please respond to the undersigned in writing.

ENCLOSURE: EXHIBIT A — EVIDENCE OF ACCESSIBILITY BARRIERS · EVIDENCE SEAL (SHA-256 MERKLE)

Respectfully,

ABRAHAM ROSENWALD

SELF-REPRESENTED PARTY
APPEARING PRO SE

Exhibit A — Evidence of Accessibility Barriers

Subject website: **daltoninvestments.com** · Pages evaluated: 6 · Captured (UTC) 2026-07-02/03 · Methodology: W3C WCAG-EM 1.0; engines axe-core, HTML_CodeSniffer, Lighthouse (cross-verified)

EVIDENCE SEAL. All captured artifacts (rendered DOM, accessibility tree, screenshots, engine output) were SHA-256 hashed and committed to a Merkle root: **cd91fc184d5ad290f6cea6f1c03360dd71acc0d3ac62ef63a41391b6bf4bdf9**, time-anchored via **rfc3161:freetsa.org**. Any alteration of any artifact breaks this seal and is detectable. Independent re-verification: **bun run src/verify.ts <manifest.json>**.

1. Itemized failures by WCAG Success Criterion

Success Criterion	Instances	Severity	Fails standard
WCAG 1.3.1 — Info and Relationships	1	serious	2.1 AA · 2.2 AA · 508
WCAG 4.1.2 — Name, Role, Value	8	serious	2.1 AA · 2.2 AA · 508
WCAG 1.4.3 — Contrast (Minimum)	18	serious	2.1 AA · 2.2 AA · 508

3 additional documented instances (and non-visual failures) are preserved in the sealed evidence set and omitted here for length; the complete itemization is available on request.

2. Documented barriers (preserved element screenshots)

A screenshot of a Google Map. The map shows a location in Japan, with a red pin and the number "25" next to it. The map includes labels for "Ninomaru Garden", "Yotsuya", "Tokyo Garden", "Nagatachō", and "Koky". There is a search bar at the top left with the text "Open in Maps". The Google logo is visible at the bottom left.
