

Exhibit Index — Accessibility Deficiencies

Subject: OTHERS_dalton_glasshouse_beachfront_arroyo_neu · Captured 20260702T210032Z (UTC) · 22 deficiencies

Each row is a discrete, evidence-backed accessibility deficiency. "Evidence file" is the preserved element screenshot within the sealed vault; its integrity is attested in the Chain-of-Custody certificate. Standards indicate which conformance target(s) the deficiency fails.

Confidence reflects cross-engine agreement: **confirmed** = 3 engines, **high** = 2, **single-engine** = 1. Automated coverage is partial; criteria requiring human evaluation are documented separately (keyboard & screen-reader captures).
